Action/Prayer/FYI Item #1: Sign Our New Petition: Congressional Liberals, Keep Your Hands Off the First Amendment.

<http://aclj.org/us-constitution/hands-off-first-amendment>

Last week we won a critical victory over Obama Administration censorship.

You spoke out, and the FCC pulled the plug on its plan to place federal government monitors in newsrooms across America.

But that was just one victory. In its quest to silence Christian and conservative voices, the Obama Administration and its liberal allies just won't stop.

Did you know that liberal Senators are renewing their calls for federal agencies to clamp down on conservatives?

Did you know that new Obama Administration regulations threaten the free speech of nonprofits across America?

We must stay vigilant.

This week at the ACLJ, we're filing a legal response to these new regulations, and we're calling on our congressional allies to step up. We've won one victory. But we have to keep winning.

Jay Sekulow
ACLJ Chief Counsel

FCC Commissioner Ajit Pai brought people's attention to a planned FCC study to study U.S. newsrooms and warned about its First Amendment implications. Pai joined Greta Van Susteren on Thursday to speak out further, saying there is a danger in giving the government oversight of a free press. It's not the FCC directly conducting the study, it's an outside contractor, but these researchers will be going, at the behest of the regulatory agency, into newsrooms to "figure out why they cover the stories that they do," Pai explained, and he said he went public because he was "concerned about what this implicated for our First Amendment values."

Action/Prayer/FYI Item #2: Protect Your State's Right to Define Marriage

<https://www.votervoice.net/FRCA/campaigns/34802/respond>

The State Marriage Defense Act of 2014 (S. 2024), introduced last month by Senators Ted Cruz (R-Texas) and Mike Lee (R-Utah), affirms a state's right to define marriage as the union of one man and one woman and prevents the federal government from undermining a state's definition of marriage.

Please contact your Senators and urge them to co-sponsor this important legislation.

The State Marriage Defense Act provides much needed guidance to the federal government regarding how to determine a citizen's marital status when applying the approximately 1,000 federal laws and benefits that reference marriage. In the wake of the June 2013 Supreme Court ruling striking down the part of the Defense of Marriage Act (DOMA) that defined marriage between a man and woman for federal purposes, chaos has reigned as some federal agencies are now granting approval of same sex marriage in states that do not recognize such marriages. As a result, the federal government has begun granting certain federal marriage benefits to same sex couples, even when the couple resides in a state that does not recognize their marriage.

This bill directs the federal government to determine marital status by looking to the law of a person's state of residence. This simple rule ensures that the federal government won't undermine the 33 states which have enacted state policy in defense of natural marriage. Again, I urge you to [contact your Senators](#) and request their co-sponsorship of this important bill.

Action/Prayer/FYI Item #3: 3 Ways to Bring Back Public Prayer in Your Community

We CAN bring back prayer.

It started when the Mesa School District decided to cave in to the intimidating demands of secularists' special interest groups and replaced the volunteer prayer at the beginning of board meetings with a moment of silence. Parents and community members voiced their support of the tradition of opening meetings with prayer through emails and at the board meetings. Due to the response, the board voted unanimously to reinstate prayer.

This caught the attention of the nearby Gilbert School District, who removed their opening prayer several years earlier. They decided to reconsider the issue, and thanks to the outspoken support of prayer from the community and students, this district also voted to bring back public prayer.

Gilbert schools' governing board reinstates prayer before meetings

<http://www.azcentral.com/community/gilbert/articles/20140129gilbert-schools-governing-board-reinstates-prayer-before-meetings.html>

Thanks to the courageous involvement of these community members, who knows how many other government

officials might follow their example and reinstate the cherished tradition of opening in prayer!

As people of faith, we must be aware of drastic measures to eliminate prayer from our community, whether out of fear or misinformation. We know that it is, and always has been, constitutional for public meetings to open with prayer. When we work together, we can bring prayer back!

Here's how you can make a difference in your community:

1. Attend a public meeting. Is it opened with prayer?
2. If not, why? During the public comment section of the meeting, simply ask. Asking your elected officials to put the issue on the agenda for future discussion, then rally community support.

If the answer is: "Opening with prayer is unconstitutional" or "We are afraid of a lawsuit," [contact Alliance Defending Freedom](#) by accessing the following URL:

We can educate your local government body on the historical and constitutional nature of public prayer and the resources available to them

Is History Repeating Itself Again? Uncanny Parallels to the 1929 Stock Market Crash...

The current stock market is more or less following the same pattern the 1928-1929 stock market leading up to the 1929 stock market crash. This, of course, is what marked the beginning of the Great Depression.

While many dismiss this correlation of data as suspect, it should at least give us concern. The stock market cannot go up indefinitely.

If the stock market doesn't correct as sharply as it did in 1929 that would be great news! With all of this easy credit available, similar to the 1920s, the similarities between these two times is hard to ignore.

Take a look at the chart below and let us know what you think.

Florida State Board of Education adopts Common Core over the protests of citizens

They stated the federal government knows best what to do with our kids.

The State Board of Education in a unanimous vote, adopted the Common Core Standards with the minor changes they added many termed this putting “lipstick on a pig.”

Far from being discouraged, the group gathered to talk about their next moves, and resolved never to allow Corporate Cronies who have greased the skids to sell our kids for their quest for money and power. They may have the money, but we have the truth and we will never sell our children out to the progressives who want a compliant citizenry called “Human Capital.”

We must redouble our efforts against this tyrannical child abuse called Common Core. Join our efforts. Our ads are spreading the word across the nation. You can help by going to www.ivbe.org and make a tax deductible contribution to our ads which are now playing in Florida and Pennsylvania. Victory to Stop Cronyism at Tampa Bay Area Regional Transportation Authority—Ronnie Duncan resigns - \$51K to TBARTA tabled indefinitely

Thank you for your help. Together our voices made the difference. Ronnie Duncan has resigned under pressure, and ended the unacceptable conflict of interest he created. Your calls and emails to The Governor, our County Commission and to TBARTA made the difference. Great job!

The issue of our county commission writing a check to TBARTA for \$51K of our taxes has been tabled indefinitely. We will be watching closely. If it comes back - so will we.

Citizens being engaged makes all the difference in good governance. You did a lot of good work for Hillsborough County and the Tampa Bay area over the last couple of weeks.

Thank You,

Ken Roberts
