Action/Prayer/FYI Item #1:

Sign this petition or contact your congressmen first thing Monday morning if you believe the government should extend long-term unemployment benefits...

Just before the New Year, in the height of the holiday season, you lose the only income you have.

For more than 1.3 million Americans, that's exactly what happened.

Republicans in Congress refused to extend long-term federal unemployment benefits during the budget negotiations. And if Congress doesn't act soon, those 1.3 million Americans will have nowhere to turn.

The Senate will be considering an extension of these critical programs in the coming weeks. And John Boehner and Republicans in the House need to do the same.

[Join me in calling on Speaker Boehner and Republicans in the House to extend long-term unemployment benefits. Sign the petition right now.](#)

For many Americans who lost their jobs to the economic recession, and are actively seeking work, unemployment insurance is their only source of security. It's how they pay the mortgage, or the rent, or put food on the table.

Republicans let that security fall through the cracks. I think it's deplorable that, during the holidays, Republicans stripped 1.3 million Americans of their unemployment benefits. And we need to fix this immediately.

The Senate is taking action. The House needs to do the same. Sign the petition below to tell John Boehner to fix this now.

Sign Petition: Obama Donor Cannot Investigate the Obama Administration

Conservative and pro-life Americans were targeted for their political beliefs in an election year by President Obama's IRS. Unbelievably the Obama DOJ has appointed a top Obama donor to conduct what was supposed to be an impartial investigation. Sign our new petition as we defend your free speech rights and read these updates on our ongoing work defending life and liberty.

Action/Prayer/FYI Item #4:

Urge your Representative to Co-Sponsor State Marriage Defense Act of 2014

The State Marriage Defense Act of 2014 (H.R. 3829), introduced by Congressman Randy Weber (R-Texas), affirms a state's right to define marriage as the union of one man and one woman and prevents the federal government from undermining a state's definition of marriage.

Please contact your Member of Congress and urge them to co-sponsor this important legislation.

H.R. 3829 provides much needed guidance to the federal government regarding how to determine a citizen's marital status when applying the approximately 1,000 federal laws and benefits that reference marriage. In the wake of the June 2013 Supreme Court ruling striking down the part of the Defense of Marriage Act (DOMA) that defined marriage between a man and woman, chaos has reigned as some federal agencies are now granting approval of same sex marriage in states that do not recognize such marriages. As a result, the federal government has begun granting certain federal marriage benefits to same sex couples, even when the couple resides in a state that does not recognize their marriage.

This bill directs the federal government to determine marital status by looking to the law of a person's state of residence. This simple rule ensures that the federal government won't undermine the 33 states which have enacted state policy in defense of natural marriage. Again, I urge you to contact your Member of Congress and request their co-sponsorship of this important bill by accessing the following URL:

Action/Prayer/FYI Item #5:

Pray for Life in Texas from the USRPN

The abortion battle is raging in our nation now more than ever. Last year, as prayer efforts focused on ending the injustice of murdering babies in the womb, we saw a record number of 87 abortion clinics closed throughout the United States! We truly believe that abortion will be ended in our day and age.

One Texas piece of legislation, called House Bill 2 (HB2), made headlines recently as one of most abortion-restricting bills in the nation. HB2 places regulations on abortion clinics--one of which requires each clinic to be within 30 miles of a hospital--that make it very difficult for those clinics to remain open. On Monday, January 6, 2014 in an effort to halt the passage of HB2, Planned Parenthood took the bill to the United States 5th Circuit Court of Appeals in New Orleans, Louisiana. The panel of judges, who were all women, heard arguments from both sides. However, it appeared during the trial that the judges leaned more in favor of the bill. For more information on this case, please access the following URL:

<http://trailblazersblog.dallasnews.com/2014/01/judges-grill-sides-over-texas-abortion-law.html/>

As there has been no decision made yet on the HB2 trial, we know that this is a time that warrants urgent and concentrated prayer. Deliberations are currently underway regarding the constitutionality of HB2, and we ask that you intercede with us using the following prayer points:

1. Ask the Lord to give wisdom to the judges and leaders who are deciding the ruling on HB2. (Proverbs 2:6)
2. Pray for righteousness to prevail in this case, for HB2 to be passed and enforced, and for the gift of life to be defended in Texas. (Psalm 139:13-16)
3. Declare that abortion is losing its grasp on American society, and pray for the ending of abortion in the United States. (2 Chronicles 7:14)
4. Praise and thank God for the many victories that were seen in 2013, including the closing of 87 abortion clinics, and declare that 2014 will be a year of double victory! (1 Corinthians 15:57)

Thank you for praying with us.

Action/Prayer/FYI Item #6:

What is your position on the ever increasing move to legalize marijuana in your state?

Cut through the hype and learn the facts by accessing the following URL listed below. This article deals with the controversy that surrounds the legalization of marijuana as a medicine or for personal use which continues to be a topic for debate at the state and federal levels within our country. Is marijuana really harmful and addictive? Does it help bring relief to those who are sick? What about compassion? It's human nature to want to help others. There are so many questions people must have when they are asked to make medical decisions about the health and well-being of others. It doesn't seem fair for the public to be burdened with decisions that should clearly be made by doctors and scientists. We hope this section will help you make informed decisions about marijuana.

FL Legislature: Adultery, Cohabitation & Marijuana are fine but Texting while Driving is a Crime?

<http://drrichswier.com/2014/01/12/fl-legislators-say-adultery-cohabitation-marijuana-are-fine-but-texting-while-driving-is-a-crime/>

LET'S HAVE A GROWN UP CONVERSATION! By KrisAnne Hall

Let's drop the talking points and political hype about this topic. Medical Marijuana... Yes, I said it! What is the problem? If you have;

No problem with MEDICAL OPIATES,...

<https://www.facebook.com/photo.php?fbid=623898140993229&set=a.110812392301809.5266.100001191476695&type=1&theater>

Following is what I have written in response to KrisAnne's blog from a Christian perspective because God's people need to be the salt and the light in our society. Therefore, we are to apply His Word and His principles concerning what we vote for, what we support, especially concerning supporting legislation which will become a matter of public policy. With every issue we are faced with we must ask ourselves the following questions and be prepared to take a stand by speaking up! "What would Jesus do?" What does God's Word say concerning this matter?

KrisAnne,

You asked us to provide feedback on what we think about making it legal for marijuana to be used for medical purposes in the state of Florida. What you wrote about this not being worse than the pills the doctors and the pharmaceutical industry push is absolutely true and duly noted. What you wrote about it being no worse than alcohol is absolutely true and duly noted. And, it is also true if they made marijuana legal it would bring in needed revenue and help get rid of the drug dealers.

BUT...here is the thing. Do you really believe if this passes it will stop at just being used for "medicinal" purposes?

Let's take Colorado for instance. If memory serves me correctly didn't they just start out legalizing marijuana to be used only for "medicinal" purposes too? Now in Colorado it is legal to purchase marijuana for recreational purposes too. Granted, this is great for young people who are already smoking pot whether it is legal or not because they can now do so without the fear of being arrested and having a record—after all we were all young once and most of us smoked marijuana in our younger years so many can relate. Still do we really think it will stop at just legalizing marijuana? What will be next? Cocaine, heroin, etc.?

We all need to step back and look at the long term implications to these issues we want to legislate as a matter of public policy because once we open up Pandora's Box it will always lead to pushing the envelope and expanding the vision concerning these matters.

Another example I will use is the Florida Lottery. Many "Christian" conservatives when Lotto was first proposed loved the idea of a state run lottery because after all we needed more money for the quality education our dear children receive (you know like Common Core, Race to the Top, IB programs turning our children into global citizens, etc.) Yes, I am being sarcastic! Yet, when entrepreneurs started coming up with slot machine outlets all over the state and the big gambling industry set their sights on bringing casinos in the state of Florida like they have in Las Vegas—suddenly the "Christian" conservatives pitched a fit and cited all the reasons why this was a bad idea! Well gambling is gambling after all and we thought it would end with just lotto! Really???

And, here we go again with trying to pass legislation for marijuana to be used for "medicinal" purposes only in the state of Florida. Yeah, right!

Yes, we all feel compassion for cancer patients and for this reason we believe we should legalize marijuana because it will help ease the pain of cancer patients, and we want to help them suffer less. This may be so, but I am sure those who believe in euthanasia have the same opinion too, as do those who want to abort a child

because they were conceived in rape, incest, or the baby has have a birth defect, or they simply are not wanted, because after all we do not want anyone to have to suffer.

Can you imagine Jesus Christ handing people a joint because He has compassion on them and doesn't want them to physically suffer? Or, would Jesus Christ heal them of their affliction and their disease, while quickly admonishing them to sin no more lest a worse thing come upon them?

Moreover, as Christians we "say" we want to see America turn back to God and the morals and personal accountability we once lived by before we lost our way.

Do we really believe we need to advocate and pass legislation which will help proliferate a more doped up society than we already have?

Do we really think this is the path we need to take to return back to God and live a moral and righteous life where we are supposed to be set free from all addictions and bondages and look to Jesus Christ for our healing spiritually, mentally, and physically instead of relying on drugs and sorcerers in white jackets doling out more pills, especially to those suffering mental anguish and depression which is what is leading to the *Spirit of Suicide* in our young people like never before?

As a matter of fact, take a look at this list for general information on antidepressants and induced suicide and associated violence at <http://ssristories.org/old/index1.php?p=murdersuicide>. This list will clearly illustrate one of the reasons why we are witnessing such a high rate of suicide and violent crimes being committed, especially by young people now more than ever before. Take time to peruse this website <http://ssristories.org/> and if you do you will know that legalizing and pushing more drugs, even marijuana, is not the answer.

Many people do not know that only Jesus can save them from the grip of the enemy whose name is Satan whose mission is to kill, steal, and destroy by using his ploys which are: deception, decay, defeat, dependency, disaster, disappointment, discouragement, **DISEASE**, disorientation, disillusionment, discontentment, distress, disturbed, distraction, doubt, distrust, destruction and death.

Jesus Christ died to set us free from all the ploys of the enemy and I can assure you this new push to legalize marijuana is indeed a ploy from the enemy even though there are some truths that seem right in our own eyes for doing so! Satan always mixes the truth with a lie because this is how he gets people to do his bidding and be deceived.

I can assure you God is **not** for legalizing any drug, including marijuana for this reason: God, our Creator who made us in His likeness and in His image commanded us to take dominion [prevail against, reign, (bear, make to) rule, (-r, over), take] and subdue [bring into bondage, force, keep under, subdue, bring into subjection] **every** living thing that moves on the earth, including the plants and herbs He has given us to sustain life, not vice versa based on Genesis 1:26-28 below.

*Then God said, "Let Us **make** man in Our **image** according to Our **likeness**; let them have **dominion** , over the fish of the sea, over the birds of the air, and over the cattle, over all the earth and over every creeping thing that creeps on the earth." So God **created** man in His own **image** ; in the **image** of God He **created** him; male and female He **created** them. Then God blessed them, and God said to them, "Be fruitful and multiply; fill the earth and **subdue** it; have **dominion** , over the fish of the sea, over the birds of the air, and over every living thing that moves on the earth." ~ Genesis 1:26-28 (NKJV)*

In the beginning God made the herbs and fruit trees for food for man to eat and to sustain life based on Genesis 1:29-31 below. Note that in the beginning God did not allow man to eat animals until after the flood. So some people say that since marijuana is a herb that God created, then it must be good for man to use. Well, God made poisonous mushrooms too but do you think He intends for us to consume them just because he made them?

And God said, "See, I have given you every herb that yields seed which is on the face of all the earth, and every tree whose fruit yields seed; TO YOU IT SHALL BE FOR FOOD. Also, to every beast of the earth, to every bird of the air, and to everything that creeps on the earth, in which there is life, I HAVE GIVEN EVERY GREEN HERB FOR FOOD"; and it was so. Then God saw everything that He had made, and indeed it was very good. So the evening and the morning were the sixth day." ~ Genesis 1:29-31 (NKJV)

Moreover, we, as believers, are supposed to exercise self control by crucifying our flesh so that we do not come into bondage or under the control of any substance created by God, our Creator, which is then perverted by man. Therefore, are we as believers suppose to lead or advocate to the lost that they become dependent on what God created, rather than point them to depend on God, our Creator and His Son, Jesus Christ? No!

This same truth applies to anyone who worships and depends on the created, rather than worshipping and relying on God, our Creator. An example which comes quickly to mind is the environmentalists who are increasingly giving more importance to sustaining the existence of plants and animals which God our Creator, created for man's benefit, not vice versa. [See Action Item #7 concerning this never ending issue.](#)

Furthermore, as believers, do we place more trust in our doctors and the pharmaceutical industry rather than in God, our Creator who sacrificed His one and only begotten Son, Jesus Christ, to bring salvation to the whole man—body, soul, and spirit? Do we really believe God, our Creator, is our *Great Physician— Jehovah Rapha—the Lord our Healer* who heals us of all our troubles and all our sicknesses?

Therefore, do we really think God approves of us, as believers, advocating legalizing marijuana and going along with aiding another generation who loves to escape every trial and tribulation we must learn to walk through depending and trusting only in Him every step of the way? Or, do you suppose God approves of us using alcohol, pot, cocaine, cigarettes, coffee, sugar, food (gluttony), or the rapture—everything and anything to escape our trials and tribulations that Jesus promised us we would have in this life rather than turning to the only One who can save our body, soul, and spirit?

So after closely examining all the facts and basing my decision on the Word of God, I cannot support legalizing marijuana for all the reasons I have cited above.

Something Is Going On

Today, the US Fish and Wildlife Service sent out the attached update, published in the Federal Register. The notice included these updates:

1. The public comment periods for both the listing and habitat designation have been reopened until April 25, 2013.
2. A third January 30 public hearing has been added to the January 8 and January 13 hearing previously announced. It will be held in Sacramento on January 30.

Also:

3. [The draft economic analysis was released.](#)

Draft Economic Analysis Available on Proposed Critical Habitat for Three Sierra Amphibians

http://www.fws.gov/sacramento/outreach/Public-Advisories/SierraAmphibian_Proposals/outreach_PA_SierraAmphibian_Proposals.htm

ANALYSIS. I don't think for one minute they are doing us a favor. Rather, I suspect the huge success of the DRA-led response caught them with their pants down.

Here is the situation that confronts them. As shown in the composite screenshot taken after the last comment period was closed, there were over 41,000 public comments submitted, and from the people that actually live in the affected areas. These comments are not favorable to the USFWS pre-determined outcome. Page after page of comments that begin with "I DO NOT SUPPORT".

FYI Item #9:

Are iPhones Surveillance Devices?

If So, It's Not Just Apple Doing It

kirk@defendruralamerica.com

I'm a big fan of Apple devices. Yet, over the past few years information has come out that leads me to question what's going on. Consider the following:

- iPhones have cameras that face you, not just the world. The cameras have no shutters.

- iPhones have microphones that have no off switches.
- iPhones have no power-off switches, only electronically-controlled soft switches. iPhone batteries cannot be removed. Therefore, iPhones are always in an On state of some sort.
- All cellphones, it has been learned, can be remotely activated and monitored without our knowledge. That includes stealth audio and video feeds.
- iPhones were first to add GPS. Now just about everything has GPS tracking--our phones, our cars, even our cameras. iPhones at least appeared to put users in control GPS-Tracking "Location Services." However, it was discovered Apple tracked our locations even if Services were deselected, and transmitting that data to Apple. Apple subsequently released a "Find iPhone" app. Useful to be sure, but users must consent to turning on Location Services to use it.
- iPhone, it was discovered, permitted a keystroke-recording app to be installed.
- iPhones, it was discovered, do not encrypt your Address Book, Calendar, or anything else.
- NSA, we have learned, has full, anytime access to our cellphones.
- The newest iPhones have fingerprint sensors built into the device's only button. Even if you somehow defeat it, the touch-sensitive screen can be used to get a fingerprint, albeit of lower quality.

[Apple recently launched iBeacon](#), a technology that allows your location to be tracked, recorded, and analyzed "with a startling degree of accuracy."

<http://finance.yahoo.com/blogs/the-exchange/privacy-advocates-worry-over-new-apple-iphone-tracking-feature-161836223.html>

The technology uses barely visible transceivers about the size of a quarter. These can/will be installed by stores, shopping centers, government facilities, libraries, etc. Apple recently released--and uncharacteristically strongly encouraged and upgrade to--its iOS 7 upgrade. The upgrade contains software that turns iPhones into iBeacon transceivers. The accuracy of the technology can be used to track not only you, but who you are meeting with.

Apple may be in the lead, but it is hardly alone. All cellphone manufacturers appear to be following suit.

AGENDA: GRINDING DOWN AMERICA

(Communism in America)

by Curtis Bowers

*The transcript and notes are by Preston Bailey, PhD.

Use public policy to subvert it from the inside- met in 1992
They have infiltrated the institutions of America
Get behind the feminist movement
Destroy business by environmentalism by regulation
Destroy religion and morality by accepting homosexuality
Hate crimes legislation
Curtis Bowers- congressional representative
1958 book- The Naked Communist, former FBI agent, 45 communist goals
Communists do not use that name. They call themselves progressives.
Communist countries in the world
Communism succeeds because people who are not communists advance their agenda.

FAR LEFT:

Nazism/Fascism
Communism
Socialism

FAR RIGHT:

Anarchy

The Democratic party was just slightly left of center and Republicans slightly right of center
Now Democrats have moved far left with the radicals with the same goals as socialism/communism
Janet Folger Porter is in this movie- the great great great grand-daughter of Benjamin Franklin whom I know
1 1/2 billion people live in communist countries
What's so bad about communism? history, mass murder
Marxism has killed 500 million through history, put in prison, etc.

Communism is the final phase of socialism
Socialism is big government- they take things by force and give it to another, not fair
Hitler
Stalin
It destroys law, morality, productivity, the family, motivation, etc.
Socialism creates the conditions for a dictator to come to power
Frederick Nietzsche- God is dead
Charles Darwin- humans are part of the animal kingdom
Karl Marx- he used these 2 men to legitimize communism
He knew their ideas would help legitimize the mass slaughter of people
The Fabian Socialist Society- their symbol was a wolf in sheep's clothing
Hard core Marxist in Venezuela
George Bernard Shaw- "I am a communist, but not a member of the communist party."

Rev Jim Wallis- Students for a democratic society

Bill Ayers- wrote DREAMS OF MY FATHER, article

The Frankfurt School- Franz Norman, ruin the education system, Bertrand Russell- produce children who accept immorality

John Dewey

William Lundsberg

This was all planned in the 1930's

They would accept any sexual deviant and change the family to a matriarchal society, destroy the family = destroy the nation, feminism

Then the government becomes the nanny state

A cultural revolution

Change the worldview of America

Destroy Christianity

Go from cultural Marxism to traditional Marxism

Change America from within

Antonio Gramsci- his plan was followed, a Neo Marxist communist, he taught undermining the morals of America, change the culture, pornography, turn their music, art, and literature against them

Once you control the culture you can mold the society the way you want to into communism

NONE DARE CALL IT TREASON- book

Infiltrate all institutions- churches, government and change from within

Change society over the long-term

Communists have promoted their agenda in Hollywood and the mass media

Quotes from leaders about communism

Saul Alinsky- Chicago radical

Saul Alinsky called for a community organizer to stir things up among the people- to have the haves and have nots against each other, blacks against whites

Hitler used this tactic in Germany to divide it into small groups

They used conflict to make people more dependent on government

They create the chaos and then they submit to authoritarianism

Obama taught RULES FOR RADICALS at workshops for 4 years for ACORN in Chicago

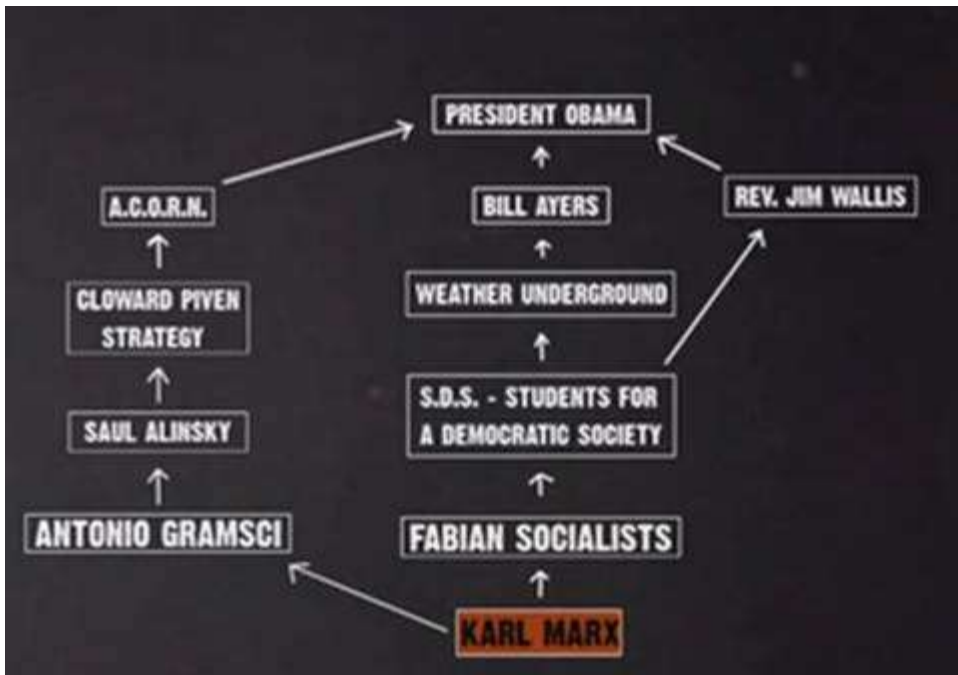

The book was dedicated to **Lucifer**

Alinsky packaged communism and sold it to the 1960's radicals

Piven studied Alinsky and came up with the "Cloward-Piven strategy" or the "crisis strategy." "Way of the poor" article

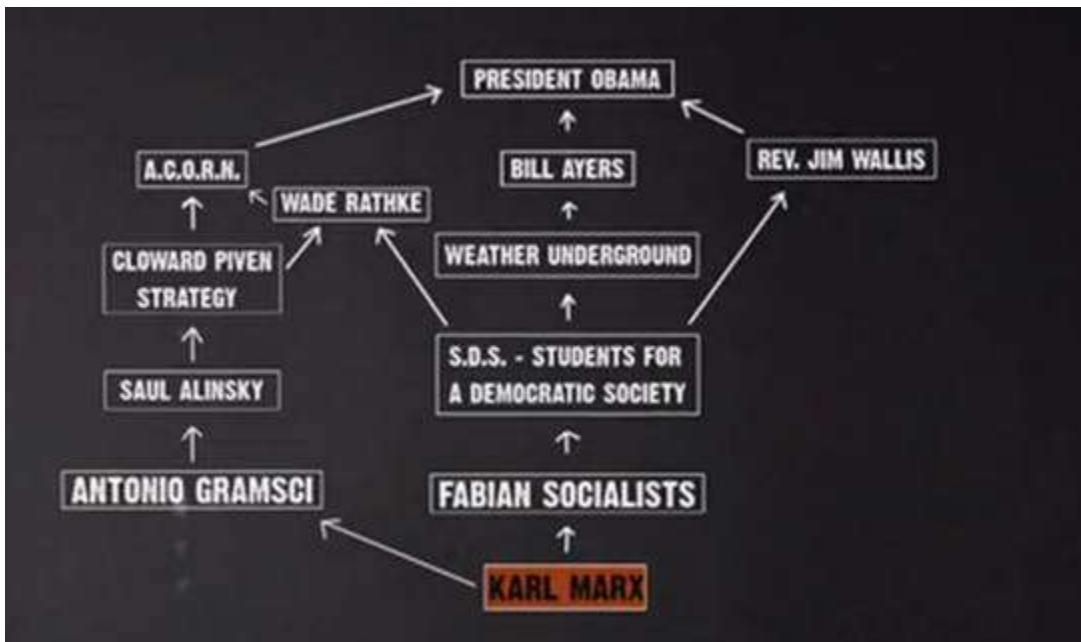

To destroy capitalism and society get as many people possible on welfare dependent on the state. Crash the American system.

Rathke read that article and he started ACORN

ACORN gave us Obama

Wade Rathke who started ACORN was the draft resistance organizer for SDS- the group Fabian started

The left keeps pushing all of these government social programs and open borders to overload the system and crash it so communism will take over

TOWARD SOVIET AMERICA by William Foster was the head of the communist party to bring out a USSA, a communist country

THE FEMINIST MOVEMENT:

Betty Friedan, purpose was to attack homemakers and make them think they were victims and needed equality of an unjust patriarchal system

She wrote THE FEMININE MYSTIQUE- she was a radical propagandist for the communist party and s supporter of Stalin and wanted to dismantle the family

THE HOMOSEXUAL MOVEMENT:

The communist party USA formed a group to push homosexuality called the Mattachine Society lead by Henry Hay

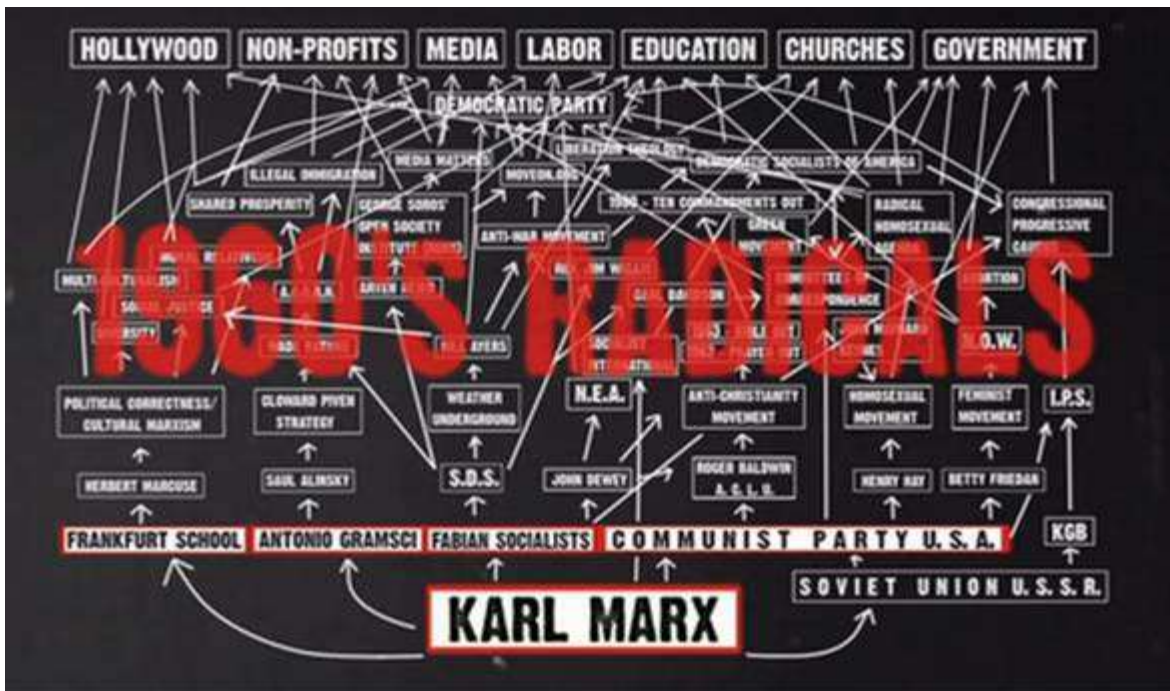

They infiltrated the culture of society and make homosexuality normal

The COMMUNIST MANIFESTO- change the meaning of marriage

The Democratic Party is really the Communist Party

WHY THEY ARE SO AGAINST MORALITY?

If you destroy cultural traditions then you can move them to accept an authoritarian government but they need to destroy Christianity with moral values and freedom
Freedom and free enterprise is the fruit of morality
John Adams- a moral and religious people

40% of children are born out of wedlock

50% of marriages end in divorce

3000 babies are aborted everyday

19 million Americans get a sexually transmitted disease every year

Situation ethics- no right or wrong

Our society is falling apart

Karl Marx- "My object in life is to dethrone God and destroy capitalism. People exist for the benefit of the state."

Destroy God and capitalism was his goal.

Society crumbles so the government takes over.

He devalued God and elevated man.

We are created in the image of god- sanctity of human life

American exceptionalism- founders based laws on Bible

The schools see nothing wrong with promoting Hinduism, Islam, etc but not Christianity

You either depend on God or the government.

Concentration camps in Germany and Gulags in Russia that devalued man

Big government abuses its power over the people

Christians have always fought for human rights

They are at war with God.

HOW HAVE THEY PULLED THIS OFF?

They control the news and news media. Views are biased and become activism.

Journalists have been trained to interpret the news and not give facts to influence the people. It is advocacy journalism for a cause.

Stalin said, "If I can control Hollywood I can rule the world!"

EDUCATION:

Vladimir Lenin- "give me four years to teach the children and the seed I have sown will never be uprooted."

John Dewey- went to Russia and brought back to the US communism. He believed education should socialize the child to make him a willing tool of the state. He dumbed down our children for socialism.

The left got hold of training colleges and unions

The radicals are now tenured professors, writing books, and running the colleges

The left have indoctrinated our children to liberalism from schools. They do not teach logic or critical thinking.

They think government is the solution to their problems.

Foster said to force every child to go to public school- no home schools

A lack of science studies

They are training children for a collective mindset to become dependent on government

They teach multi-culturalism, tolerance, and acceptance of non-Christian values

They do not teach what our founding fathers taught

Schools are controlled by the teachers union that promotes the feminist agenda, gay rights, globalism, anti-family, ignore history and impose their ideas on children, environmentalism, immorality promoted- sex

education curriculum, ignore parents, NEA controls everything taught- Common Core, give new definitions of words, (social justice is communism), they do not teach things that made America great, they teach and glorify foreign countries with communist leaders, not pledge allegiance to the flag (pledge allegiance to the world)

They focus on the 15 to 25 years old

They want to dumb down people to not think for themselves

They want to throw out the US Constitution

ENVIRONMENTALISM:

If you can persuade people that government needs to control energy then every intimate aspects of your life will eventually be controlled by the government

Al Gore- EARTH IN THE BALANCE, read the last chapter, 1992, totalitarian government

The founder of Greenpeace later realized it had been captured by radical leftists that were intent on destroying capitalism

Scare people about energy sources like coal as being bad then you drive up prices and get more tax revenue.

The government then eventually want to control all personal transportation so people have to use public transportation

THE GREEN CRUSADE- book

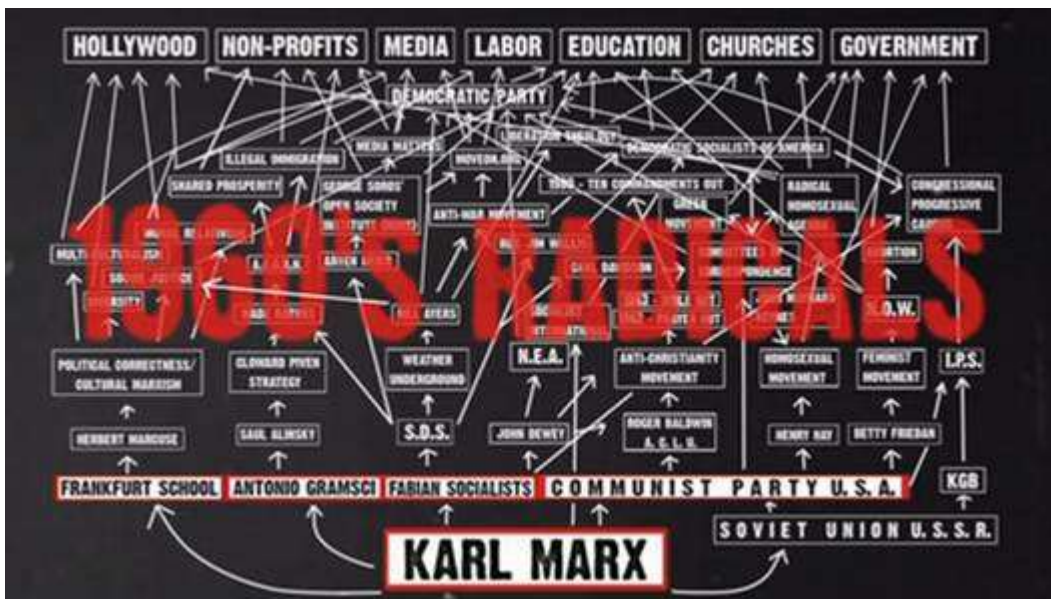

"Environmentalism" becomes everything around you in communism

Global warming is simply a communist agenda to get more control

HAVE THEY BEEN SUCCESSFUL?

Frank Marshall Davis joined the communist party and Obama was his friend and Davis was his mentor

In 1972 when the committees of correspondence split, the new leaders involved were involved in the Obama administration

Socialism and Marxism go together. Communists are standing behind socialists.

The leftists convinced Americans to put a communist in office

The left has started many non profit organizations and foundations using tax dollars to promote their agenda.

They use patriotic words to lie to the public.

When socialists gain control of the government, the communists will come in and take over. They will kill the socialist leaders because they realize if these socialists betrayed their own country then they will betray the communist leaders as well.

This has happened throughout the history of socialism.

These communist will overthrow the people and re-engineer society.

The inspiration of freedom formed America.

IS THIS TOO LATE?

Countries destroyed by communism:

Zimbabwe

Nazi Germany

Argentina

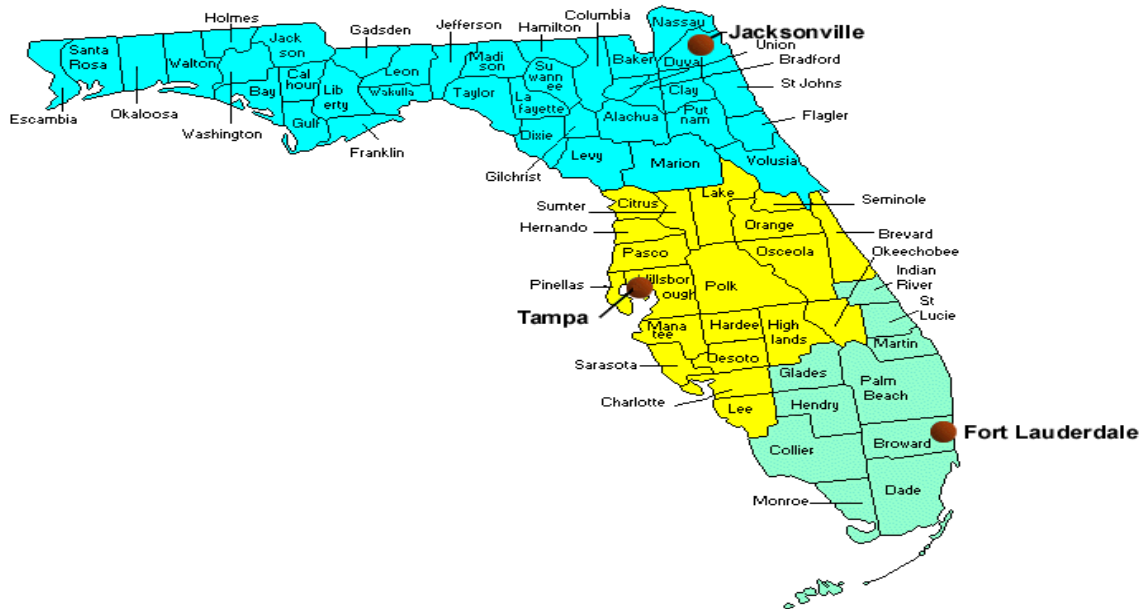

Venezuela

WHAT MUST BE DONE?

- Pray
- Meet with others once a month to discuss the spread of communism

Committee members need to hear from you. There are cases of insurance companies refusing to provide insurance to gun owners because they own guns, as well as cases where applications for insurance contain questions about gun ownership. SB-424 will stop such practices.

Personhood FL Launches New ProLife Constitutional Petition to End Abortion

Personhood FL has launched a new prolife constitutional petition to end abortion and protect all innocent human life including the elderly and the disabled. The new petition is based on language that has won the approval of the Catholic Conference of Bishops and helped build a coalition to help the ND legislature pass the first ever personhood amendment.

Please note that this is a new petition. If you have signed one of our previous petitions, you must sign this petition as well. Download The Right to Life of All Persons Recognized and Protected Amendment Petition today!

<http://bryanlongworth.com/listemcontact/lt.php?id=YUkCDANQA1JSGVQNAUKGDAYG>

In studying the outcomes of previous personhood efforts, we have learned that our language needs to be easy for voters to understand. The new petition is just that: simple and to the point. Using terms the average voter can relate to makes the amendment more marketable both in the petitioning and get out the vote (GOTV) phases of the amendment process. The Right to Life of All Persons Recognized and Protected Amendment Petition simply states: *"The God-given right to life of every human being at any stage of development shall be recognized and protected. This provision shall be deemed to supersede any other inconsistent provisions."*

To be truly effective though, a personhood petition must also be legally effective. That's why the language of The Right to Life of All Persons Recognized and Protected Amendment was adapted to the Florida Constitution and statutes by Personhood USA and Liberty Counsel attorneys. This is vital since the Florida Supreme Court created a "right to abortion" in the case re T.W., A Minor. The Right to Life of All Persons Recognized and Protected Amendment takes this "right to abortion" head on by adding a clause that the amendment supersedes any inconsistent provision.

To launch the new amendment, we need your help. Please donate today <http://bryanlongworth.com/listemcontact/lt.php?id=YUkCDANQA1JcGVQNAUKGDAYG> to help Personhood FL launch the new amendment.

LIBERTY FIRST NETWORK LEGISLATIVE UPDATE FOR JANUARY 9, 2014

*** This update is for information only. No reader action is needed unless desired or specified, see Red Light Camera section for an Action Item ***

This week was another committee week. Legislation of interest this week included threatened use of force and red light camera bills, as well as an indirect REAL ID bill.

Threatened use of force

The first bill of interest was [SB 448](#), which is titled "**Threatened Use of Force.**" It was heard by the Senate Criminal Justice committee on Wednesday January 8.

This bill in our opinion is needed to correct some unintended consequences wherein people that threatened to use force were charged and convicted and received a mandatory minimum sentence. The committee barely had enough Senators present to form a quorum, and was delayed until enough could arrive to do so. Several speakers in favor of the bill appeared, including Paul Henry from Liberty First Network, Eric Thursday from Florida Carry, Greg Newbern from Families Against Mandatory Minimums, and Marion Hammer from Unified Sportsmen of Florida. The only person to sort-of speak against the bill was a representative from the Florida Prosecuting Attorneys Association, who indicated his issue was how prosecutors were being portrayed. He conceded the bill had good provisions, but reminded the committee there were two sides to all stories, and people in prison had been found guilty by a judge and jury.

Once the vote came, it was easily passed with a 5-0 vote. The bill moves next to the Judiciary committee, and if passed there to the Rules committee. There is a companion House bill, HB 89, that we are tracking. Back in November, it passed its first committee with a 12-1 vote. It has two more committees to clear, the Justice Appropriations subcommittee and the Judiciary Committee.

Red light cameras

The next bill was a proposed committee bill (PCB) in the House called [THSS 14-01](#). THSS is the Transportation and Highway Safety Subcommittee. This bill has several sections dealing with transportation, but of interest was the section dealing with **red light cameras**. Rep. [Frank Artilles](#) has a legislative record of opposing the camera scheme, and his bill was on-topic once again. His reasoning was that since the stated reason by so many local officials was that of safety and not revenue, he would introduce a bill to remove local revenue from the equation. Needless to say, the hypocrisy of the camera scheme was exposed yet again. Rep. [Linda Stewart](#) offered an amendment to remove all red light camera changes. In our lengthy conversation with Rep. [Barbara Watson](#), her main concern was that local cities would not make enough with the \$25 allowance to pay for the cameras. Rep. Artilles offered a substitute amendment that would replace the \$25 with leeway to cover the administrative cost of the cameras.

It was interesting to watch Rep. Stewart try to figure out the amendment process. Rep. Artilles had created a substitute amendment for her amendment and Chair [Daniel Davis](#) went out of his way to clarify that the substitute amendment replaced (substituted) her amendment. When she had the chance to oppose it, she failed to do so. In a subsequent re-vote (Chair Davis again went well out of his way), she again failed to oppose the substitute amendment.

Even though Rep. Artilles' compromise amendment squarely addressed her funding concerns, Rep. B. Watson voted against the bill along with Reps. [Bobby Powell](#) and Linda Stewart.

The bill passed with a vote of 10-3. It will have several more committee stops. We do not have full information at this time. Since there is no Senate companion, we suggest calls to your Senator to get one filed.

REAL ID

This was not so much as REAL ID bill as a fairness issue that involves REAL ID. Today the Senate Transportation Committee heard [SB 274](#), titled Inmate Reentry. What this bill does is give financial and time

relief to Florida inmates being released from prison. It gives them a certified birth certificate and also uses tax dollars to help them obtain the documents needed due to the REAL ID law. Citizens on the other hand receive no help in either the cost or time required to obtain these documents. By itself, it is a good idea to help them re-integrate into society. However, this is the third time in 12 months that the Legislature has helped someone other than the citizens of Florida with driver licenses. In March 2013, in the space of 21 days the Legislature filed and passed a bill to repeal the international license requirement that was opposed by foreign tourists. This was the first bill to be signed last session by Gov. Scott. Later in the same session, the Legislature passed with only 2 no votes a bill to allow certain illegal immigrants to use federal "Deferred Action" letters to obtain a Florida driver license. This bill was vetoed by Gov. Scott.

We see this as a basic issue of fairness, as the Florida Constitution in Article 1 Section 2 talks about basic rights and equal treatment. We cannot understand some in the Legislature's desire to put all of these others ahead of Florida citizens.

A companion bill **HB 53** was heard in under "120 seconds" by the House Criminal Justice committee. Even though there were speakers to redress their grievances with their government (this is language from the 1st Amendment if it sounds familiar), Chair [Matt Gaetz](#) prohibited any public testimony. The bill was basically rubber-stamped passed with a 12-1 vote.

In our opinion, these bills are not likely to fail, and we will not be following up on them so that we can focus on other more important issues. We thought it was important to document the level of concern for non-citizen or convicted felon licensing relief that the Legislature has expressed.

Another committee week is scheduled for next week, and the regular session begins on March 4. We'll be updating relevant activity on a weekly basis.

[We spend a lot of time and money bringing this information to you. Did you know the "average" lobbyist in Tallahassee makes \\$92,000/year \(salary.com\)? An excellent alternative to Public School in Vero Beach, FL

[Master's Academy \(Vero Beach\)](http://mastersvb.org/about-us/) does NOT teach revisionist history, does not promote moral relativism and does not compromise when it comes to academic excellence. Instead, students are taught to reason from a Biblical perspective in all areas of life. They are taught the TRUE heritage of our United States without omitting the “faith of our fathers” or painting them with the skewed brush of progressivism. Take just a few seconds to click the link below.

<http://mastersvb.org/about-us/>

Master's will be hosting an open house on February 27th at 6:45 PM. If you have friends and relatives with school-aged children, take another few minutes and forward this email and encourage them to attend. For those with incomes less than \$45k/year, [StepUpForStudents](http://www.stepupforstudents.org) has scholarships opportunities and applications are being accepted starting in February.
