Calling all College students--Help Alliance Defending Freedom fight for the Sanctity of Life and Help Abolish Abortion in our Lifetime

We believe this.

For twenty years, Alliance Defending Freedom attorneys have defended life. We've fought for the rights of healthcare professionals who were forced to assist in abortions, for peacefully demonstrating pro-life college students, and for former Planned Parenthood employees, who want to speak out about what they saw behind closed doors.

SFLA 2013 Alliance Defending Freedom 'We've Got Your Back'

<http://www.youtube.com/watch?v=tKKWc6YwgiU>

This month, thousands of college students will gather for a one day conference we are proud to sponsor with [Students for Life of America](http://studentsforlife.org/). For more information access the following URL:

<http://studentsforlife.org/>

The conference provides education, training, and networking opportunities with pro-life students from across America and national leaders who all know just how vital this pro-life generation is to abolishing abortion in our lifetime.

On January 22nd, they'll join with hundreds of thousands of other life supporters for the [March for Life](http://marchforlife.org/), on the anniversary of Roe v. Wade. Last year, over 650,000 people filled the streets to make a statement and stand for life. For more information access the following URL:

**We're encouraged to see the tide turning from
a culture of death to a culture of life.**

But we still have a long way to go.

You ARE MAKING A HUGE DIFFERENCE -- right HERE, right NOW, for LIBERTY!

With a Balanced Budget Amendment, we can save the American dream!

"This country, with its institutions, belongs to the people who inhabit it. Whenever they shall grow weary of the existing Government, they can exercise their constitutional right of amending it...I will venture to add that to me the convention mode seems preferable, in that it allows amendments to originate with the people themselves."

Action/Prayer/FYI Item #3:

The purpose of this edited Article is to identify points of agreement between Convention of States and Citizen Initiatives and to clarify the differences.

The following Article is the official public policy statement of Convention of States and Citizens for Self Governance, author Michael Farris. Comments by Charles Kacprowicz, National Director of Citizen Initiatives are inserted in red with the preface "CK's Comments". Citizen Initiatives is advancing the Article V "Sovereignty and States Rights Amendment Convention" independent of Convention of States.

Special invitation from WallBuilders for pastors and ministry leaders...

We'd like to extend a special invitation to you and the pastors and ministers of your church to take part in one of WallBuilders' Congressional Pastors' Briefings held in Washington, DC, where they will come to the nation's Capitol building for a private, after-hours Spiritual Heritage tour of the United States Capitol, followed the next day with exclusive briefings from some of the leading Senators and Representatives on issues of importance to people of faith.

You can find out more about these briefings by visiting our website. The briefings will be held **April 8-9** and **September 9-10, 2014**. If you are a pastor or ministry leader, you can register to attend one of the briefings – but hurry, space is limited! (If you know a pastor or ministry leader, please encourage them to attend.)

There is no charge for the Briefings; however attendees are responsible for their own transportation, food, and lodging. The events are truly inspiring and attendees will be blessed!

Please feel free to forward this to any pastors or ministry leaders you might know.

To register and for more information, visit us at <http://wallbuilders.com/PBdates.asp>

If you have any questions, we can be contacted at 817-441-6044.

Prayer/FYI Item #5:

SIGNS IN THE HEAVENS: Real omen? A ‘super blood moon eclipse’ in 2014-15 during Yahweh’s Feasts/Holy Convocations

*Then God said, “Let there be lights in the firmament of the heavens to divide the day from the night; and let them be for **signs** and seasons, and for days and years...” ~ Genesis 1:14 (NKJV)*

*[The **Signs** of the Times and the End of the Age] So they asked Him, saying, “Teacher, but when will these things be? And **what sign will there be** when these things are about to take place?” ~ Luke 21:7 (NKJV)*

*And Jesus said in answer to His disciples’ question, “And there will be great earthquakes in various places, and famines and pestilences; and there will be fearful sights and **great signs from heaven.**” ~ Luke 21:11 (NKJV)*

If people are seeking an omen, or sign, they should just check out the timing of the highly unusual four blood moons over the next two years, including a “super blood moon eclipse.” The last time the same sequence happened was in 1967 and 1968, when Israel recaptured Jerusalem in the Six-Day War. Before that, it was in the 1940s, when Israel was born. It didn’t happen the 1800s, not in the 1700s. Not even in the 1600s. It did take place in the 1400s, in 1493 and 1494, when the Jews were expelled from Spain. “Four total lunar eclipses happening the next two years herald possible war in the Middle East as well as global economic collapse,” Pastor Mark Biltz of El Shaddai Ministries told WND in an email. He that historically, these types of solar eclipses have been signs, foretelling important events such as the destruction of the Temple of Jerusalem.

“Two happened right in a row at the time of destruction of the temple in 70 A.D. and on feast days,” he said. “Around eight months before the Temple was destroyed we find on 10/18/69 there was a partial lunar eclipse on the Feast of Sukkot. A total solar eclipse followed this on Nisan 1-3/30/70, the beginning of the religious year. Two weeks later there was a penumbral lunar eclipse on Passover on 4/14/70. An annular solar eclipse followed this on Rosh Hashanah on 9/23/70. Then another penumbral lunar eclipse on Sukkot on 10/8/70,” he explained. Biltz said that what makes the coming events startling is the fact they will happen on the Feast of Passover and the Feast of Tabernacles in consecutive years. “This has happened only eight times over the last 2,000 years!” Biltz said. “And the last two times these occurred on the Jewish holidays there was a war in the Middle East regarding the nation of Israel. These are patterns and historical facts that cannot be disregarded. The Jewish Talmud records that total lunar eclipses are indicators or omens for the nation of Israel.”

Israel To Destroy Dome Of Rock Mosque On Temple Mount? Time for 3rd Temple to be Built? Prophecy At Hand!

<http://beforeitsnews.com/prophecy/2014/01/the-3rd-temple-israel-to-destroy-dome-of-rock-mosque-on-temple-mount-breaking-2458322.html>

Please Note:

Based on all the end-time prophetic signs coming to pass on a **global** basis, especially concerning the nation of Israel, I will be releasing a series of teachings in the near future concerning who Israel is, what the Abrahamic covenant is and why the body of Christ needs to stand with Israel now more than ever. One of my mandates is to be the watchmen on the wall and sound the trumpet when I see danger approaching to warn God's people. In addition, another one of my mandates is to help prepare and equip God's people for the return of Jesus Christ. ~ Donna Rogers

Prayer/Action/FYI Item #7

Shooter drills are already happening at a public school near you—some without parental consent! Is this common practice getting our children ready for martial law? I'll report, you decide!'

I was sent the articles below from Christina Michas, founder of Operation Jericho, who is spearheading a mandate by the Lord to get our children out of the public schools in mass exodus, after I shared with her a vision the Lord had given me back on January 18, 2013 concerning school buses being used to take the children in the public schools systems directly to concentration camps in the future in the event of martial law. Therefore, I have included my journal entry concerning this vision below.

January 18, 2013

In the vision I had the other night while praying in the Spirit I saw school buses lined up one after another. They will be using school buses to take children who attend public school to the concentration camps when they enact martial law. God's people must get their children out of the public school systems. Also, different cities will be burning with fire all over America

Please take time to read these articles for your children's sakes and seek the Lord concerning what action you need to take to get your children out of the public school systems now!

According to the first article this is what is being done now in public schools all across America, and I believe based on the vision the Lord gave me and other news stories I have included below these links, that they are training our children for the real thing when, not if, martial law is declared!

Make sure you read the first article I have provided below which says...

*“**Sometimes** parents are notified in advance where the kids are being taken and **sometimes** they are only told that the children are being taken to an “undisclosed location”.*

*“During the drill, some students and school staff were instructed to pretend to be injured. In addition, parents were instructed not to call the school during the drill and children were instructed **not** to call their parents...”*

*And, one school said that “no child will be released for **any** reasons during this practice activity or real emergency. All parents are asked to review the detailed letter explain the official steps for such drills and practice activities.”*

How is it the school has the right to take kids off school property during school hours to an “undisclosed location” when we have to sign permission slips for every field trip, especially without parental notification as some schools are doing?!!! In other words, when we drop our children off at their government run schools every day more and more parents are being told they cannot question what the authorities in charge have decided what is best for all the children and they need to comply!

I already felt an urgency in my spirit when I read the article below a few weeks before my conversation with Christina based on what one of the pastors said in the article below regarding the public school systems which is as follows: *“Three months ago it was quarantine and relocation centers and now it’s ‘community centers’ and **these are going to be activated at the local schools,**”* he said.

For those of us who are fighting against Common Core, Race to the Top, the IB curriculum which by the way are all under the umbrella of Agenda21 a UN initiative to make our children wards of the state and the international community!

As many of you already know, our children are being consumed by enemy forces in their public schools with the Islamic/Marxist/Socialist/Communist/Homosexual indoctrination taking place all over America.

There used to be a profound sign in my son's school gymnasium at his Christian school which states, "*Whoever wants the next generation the most will get them.*" So based on what is going on in our children's public schools who do you suppose will get their minds and souls unless God's people intervene now?!

Do you really think we will be able to protect our children in the public school system and stop the indoctrination going on within their curriculums based on billions of dollars being funneled into the school systems by Bill Gates and others who do not have your child's best interest at heart? Not to mention OUR tax dollars and the dues of 3.2 million teachers too! Don't take my word for it! Rather listen to the video below where Bob Chanin, General Counsel to the National Education Association,

recently retired after 41 years of service [but there are many more just like him!] said in his farewell address to the NEA the following:

*“Despite what some among us would like to believe it is not because of our creative ideas; it is not because of the merit of our positions; it is **not** because we care about children; and it is **not** because we have a vision of a great public school for every child.”*

*“The NEA and its affiliates **are effective advocates because we have power. And we have power because there are more than 3.2 million people who are willing to pay us hundreds of million of dollars in dues each year because they believe that we are the unions that can most effectively represent them**; the union that can protect their rights and advance their interests as education employees.”*

Like I said earlier, it is my job to sound the alarm and warn God’s people of impending danger. Therefore, what you do with this information is up to you. However, I know that I know we owe it to our children to protect them and raise them up in the admonition of the Lord! And, it is for this reason we must do all that we can to get the body of Christ to step up to the plate and either home school their children or better yet have the corporate body of Christ raise up more Christian schools, especially when our children are being silenced about their faith in the public school systems more than ever before!

In addition, in this hour we must get ourselves and our children firmly grounded in Jesus Christ above everything else. Therefore, for those who believe we must send our children to the public school system to be the sacrificial lamb to be the salt and light in the “*pit of satan*” I do NOT agree with this assessment! Our children are already falling away from the faith once they enter college in record numbers and yet we expect our young children who are swayed by their peers and are taught they must obey those in authority to make a difference when they do not have the maturity to do so? Really???

In fact, some teachers who are Christians in the public school system admit in the DVD titled, “*Indoctrination—Public Schools and the Decline of Christianity in America*” that it is extremely hard for them to be the salt and light in their schools without losing their jobs, and some have lost their jobs because they decided to take a stand for Jesus Christ! And, they are adults for goodness sakes!

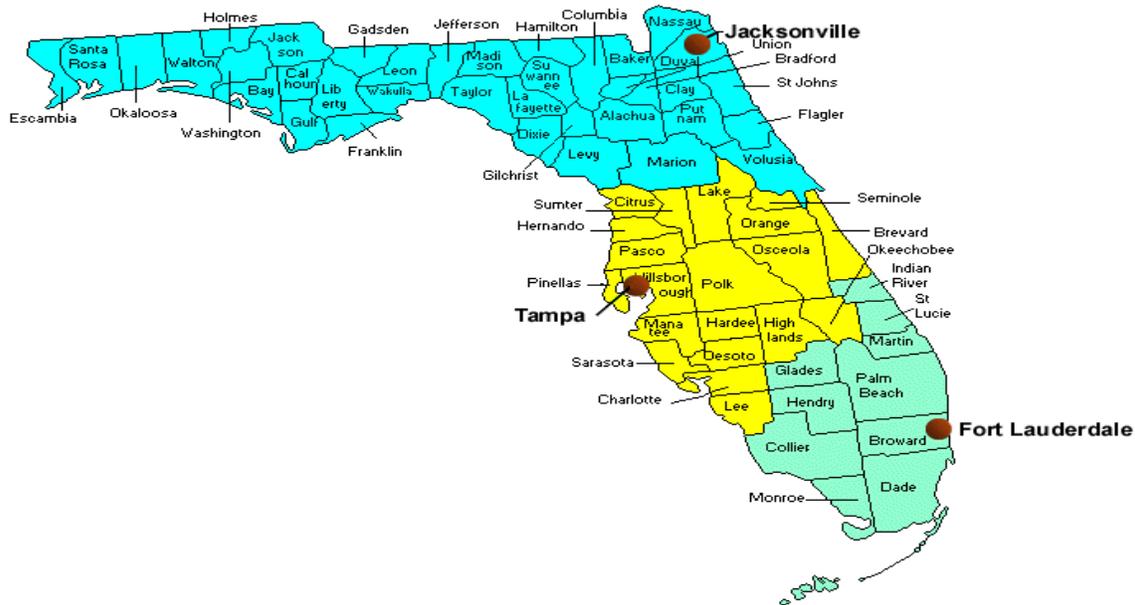

Furthermore, we must also continue our fight to stop curriculums like Common Core, and all the other indoctrination happening in the public schools for the sake of those who are not of the Christian faith too! In the state of Florida we have a couple of coalitions on a state wide basis fighting against Common Core. But do you know who is missing in their sponsorship of these coalitions and sending activists to aid these coalitions? The corporate body of Christ!

Moreover, we must totally revamp our education system in America and allow those who are already paying taxes for their children's education to have a choice where their children attend school and at the very least receive a tax deduction! I like many others, not only pay taxes for government run schools in our state, but if we choose to send our child to a Christian school, because not all children thrive being isolated in a home school environment, we also have to pay the price of a college education to send our children to a private Christian school. Just for high school alone for my son, for tuition ONLY, it will cost us \$28,000 dollars for four years! This does NOT cover the cost for books, uniforms, sports fees or anything else. Not many people are able or willing to make this type of financial sacrifice for their children. This is another area the corporate body of Christ or wealthy Christian businesses can step up to the plate and offer tuition assistance or scholarships for elementary and high school too not only just for college. By the time our children get to the college level they have already been indoctrinated!

Last, but certainly not least, we must get rid of the Department of Education!

Help the Coalition of Property Rights oppose this amendment for Water and Land Conservation in the State of Florida

Private property: an extinct species?

It seems all but official...last week the announcement was made that a sufficient number of signatures has been obtained to place an amendment proposal to Florida's Constitution on the November 2014 ballot.

What is it?

The ballot is entitled "Water and Land Conservation." And it "dedicates funds to acquire and restore Florida conservation and recreation lands." And does it ever!

The amendment will require 33 percent of net revenues from the existing excise tax on documents (the state documentary stamps on real estate transactions) for 20 years be placed in the "Land Acquisition Trust Fund." That adds up to a potential of \$10 Billion available to be spent. The monies will be designated to acquire land, manage lands, improve lands, and service debt on bond issues among other things.

CPR OPPOSES THIS AMENDMENT.

Who is behind this initiative?

The campaign is called, 'Florida's Water and Land Legacy.' It is being promoted by The Florida Conservation Coalition headed by Bob Graham, Lee Constantine, and Nathaniel Reed. It has the endorsement of many extreme environmentalist groups. And, it has been advised and funded by "The Conservation Campaign," a Washington, DC organization that has generated more than \$35 Billion in new public money (tax money) for land conservation.

AGAIN, CPR OPPOSED THIS AMENDMENT. WHY SHOULD YOU?

Do you think government should own massive amounts of land?

The American dream was founded upon the principle of private citizens owning property as a protection against the potential tyranny of the state. This principle, emphasizing owners with the freedom to prosper (through the achievement of an economic expectation) by using their land, is the reason our country has become the most exceptional in history. Large amounts of government owned lands threaten that dream for many reasons.

Do you know how much Florida land government owns?

Government already owns and controls more than 30% of Florida. In fact, more than 27% of Florida is already held in conservation. With additional government ownership of land, comes added government bureaucracy. For years, government has struggled to produce an accurate inventory of the lands it owns and controls. And, the funding to manage or maintain these lands has been less than adequate.

Will more money make government a better steward of Florida's lands and finances?

Government is not the desired manager of money nor is it the best steward of property. Private Citizens are much better at accounting for and managing money and property. In fact, Randall Holcombe, in a 2009 article written for the James Madison Institute, documented how private land management firms could manage acreage at a much lower cost than the state. The plans described in his study were never attempted because government bureaucracy got it the way.

Have you ever considered what happens when government owns and controls land?

1. Our tax dollars (a lot of them) are spent to purchase the land. Since 2001, nearly \$3 Billion of your tax dollars have been spent to buy land for conservation.
2. Additional tax dollars must now be spent to maintain those lands including the hiring of more state employees (increasing the size of government) and the purchase of more equipment and facilities.
3. When property goes unmaintained, it can become a safety hazard to other people and their property (as illustrated by Florida's brush fires).
4. Once government controls land, it often becomes "off-limits" to "We the People" even though we theoretically own them. No trespassing signs often dominate the fences forming the boundaries of "state owned" lands.
5. When government owns and controls property, the natural resources of those properties become untouchable.
6. Land placed in conservation usually sits fallow and makes little to no contribution to our state's economy.
7. Parcels owned and controlled by the state are taken off the tax rolls. This places an additional burden on local government and local citizens to fund their own local needs of things like education, local fire & safety, local infrastructure improvements, etc.

CPR urges you to oppose this amendment for the following reasons:

1. Eroding the amount of privately owned property erodes the American dream. Our Founding Fathers understood an important principle: the right to property that ensures the other rights we enjoy and is a defense against tyranny.
2. Private property ownership leads to maintenance and wiser use. Before entrusting government with more money to buy land, it should be held accountable and demonstrate its ability as a wise steward to maintain what is currently owned.
3. This amendment creates and funds additional government bureaucracy that will be neither accountable nor efficient.
4. Florida currently has action plans and agencies (such as the Department of Environmental Protection) which are positioned to balance the purchase and management of land while coordinating those plans with protecting Florida's water quantity and quality. Funding allocated to fulfilling those plans (already approved and in action) would be a much better use than putting billions into the hands of narrow,

special interest groups, many of which have an extreme environmentalist philosophy. In closing, consider two opposing philosophies of those who wish to direct our future:

The special interest, extreme environmentalist/sustainable development philosophy is expressed in this preamble quote from the United Nations (UN) Habitat 1 Conference, held in Vancouver, Canada in 1976.

“Land...cannot be treated as an ordinary asset, controlled by individuals and subject to the pressures and inefficiencies of the market. Private land ownership is also a principal instrument of accumulation and concentration of wealth and therefore contributes to social injustice; if unchecked, it may become a major obstacle in the planning and implementation of development schemes...Public control of land use is therefore indispensable to its protection...”

Alternatively, the principle and value which made America the land of the free and the home of the brave is expressed in this quote by Virginia Colonist and Founding Father Arthur Lee in 1775, “The right of property is the guardian of every other right, and to deprive people of this, is in fact to deprive them of their liberty.”

Perhaps, rather than increasing land purchase, it would enhance liberty and be more beneficial to the potential property owners in Florida to consider lowering the high cost of current doc stamp tax taxes by a third.

We urge you to inform others as to the threats this amendment poses and support CPR as we stand in opposition. Unlike the well-funded special interests, we depend upon property rights advocates like you. Please help us with your donation today.

For decades, private property rights have come under numerous attacks in the name of conservation, protecting the environment, and sustainable development. Indeed, even today in Florida, the extreme environmentalist movement has convinced some of Florida's elected officials to promote public policies that will empower and enlarge bureaucracies, impose mandates, erode property rights, and cripple free markets.

Rob Gordon will address these issues and others through his keynote address explaining the "American Conservation Ethic," eight principles that are grounded in experience, science, wisdom, and the enduring values of a free people.

Come prepared to be enlightened, emboldened, and encouraged join with others in the pursuit of public policy based on economic and individual freedom.

Common Core Now Referred to as “Florida Standards”

The *Tampa Bay Times*' Kathleen McGrory reports, “The state education department tried to distance itself from the controversial Common Core State Standards last week by recommending changes to the benchmarks and giving them a new name. ‘The proposed standards are truly our own,’ Deputy Chancellor Mary Jane Tappen said during a Tuesday workshop on the freshly named ‘Florida Standards’.”

Is this Florida's attempt in an gubernatorial election year to put lipstick on a pig named Common Core?

FOR IMMEDIATE RELEASE

Announcing State Coalition,

**THE FLORIDA COALITION FOR EDUCATIONAL
EXCELLENCE (FCEE)**

We are a coalition of grass roots groups working together to restore state, local and parental control of our educational system. With the advent of Common Core State Standards, the attempt to remove cursive writing from lesson plans and the discovery of questionable textbook content, we and many citizens across the state have decided it is time to get involved. We believe that our children are our most valuable asset and that the responsibility of their education belongs to the parent.

Pastors and ministry leaders we really need you to get the people in your congregations involved with this initiative too!

Action/Prayer/FYI Item #5:

I really would like for you to prayerfully consider joining me and our team and supporters from all across the state to participate in the **Pro-Family Days at the Capitol** in Tallahassee on **March 17-18, 2014**. This is going to be a great time of learning, seeing history up close and taking action to really make a difference for our core issues of life, marriage, family and liberty. Many who have taken trips like this have described it as amazing, eye opening and for some totally transformative.

For those who join us there will be:

- Issue briefings by top leaders
- Legislative Prayer Breakfast
- Great food and fellowship
- Meetings with local legislators
- Making an impact on issues that matter!!!
- Special speakers
- Historic tour of the Old Capitol

Registration for this event and all the details can be secured online now at the following link:
<https://ffpcprofamilydays.webconnex.com/Registration>

NOTE: We have a need for local "Area Team Captains" to organize larger groups to come up in vans and buses from your church or community. Please contact FrontDesk@FLfamily.org or call 407-251-5130 ASAP for details on how you can become an "Area Team Captain" for your church or area.

As part of the Pro-Family Days event activities on Tuesday morning, March 18 we will be starting the day by holding a Legislative Prayer Breakfast in Tallahassee from 7:30-8:45am. Our special guest speaker will be author, Christian leader and pastor at Four Oaks Church, **Dave Harvey**. Dave will be speaking on the topic of his book "*Rescuing Ambition*." We will be serving a hearty Country Breakfast Buffet and will also be hearing from many legislative leaders and other special guest speakers.

I hope you can join us. Thanks for all you do to support our work. We are grateful to God for you.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Tim', written over a light blue circular scribble.

Article V “*For and Against*” Educational Opportunity. Learn more now by listening to this recording!

Recently the Tea Party Patriots did an outstanding job hosting an Article V “*For and Against*” symposium that was extremely educational... Total time is about an hour and 10 minutes but worth taking the time to listen too...

Guest speakers were **Glyn Wright**, Executive Director of Eagle Forum and **Rob Natelson**, Article V Constitutional Scholar, Senior Fellow in Constitutional Jurisprudence, Independence Institute & Montana Policy Institute, Professor of Law (ret.), The University of Montana... Please note that Glyn Wright is **against** and Rob Natelson is **for** an Article V Convention...
