### Stop Radical Judge Urge your Senators to Oppose Confirmation of David Barron

Right now the Senate is considering whether to reject one of Obama's most radical nominees to the federal bench. If you act now and contact your Senators, he can be blocked.

David Barron has been the source of considerable controversy for both sides of the aisle. In 2010 he authored legal memos on behalf of the Obama Administration justifying the extra-judicial killing of American citizens via drone strike. Since then, the White House has refused to release these memos and has denied the public any glimpse into how Barron handled important legal questions regarding the due process clause of the Constitution and the Fifth Amendment's right to trial by jury.

The fact that David Barron authored memos that even the Left finds alarming and unprecedented should give anyone pause.

Barron is a warrior for what he calls "progressive Constitutionalism," a viewpoint that sees the Constitution as a "dynamic document" in need of interpretation in the light of the "progressive tradition" to avoid the pitfalls and "deficiencies" of originalism.

Barron openly embraces judicial activism in creating and defending abortion rights. As he explains it, sometimes you need to fudge a little bit to get what you want: "unfortunately clarity, candor and activism cannot co-exist without raising serious democratic objections, for some constitutional principles [such as those in *Roe*] demand flouting popular will. Thus, given the costs of foregoing activism, candor and clarity seem a preferable choice for sacrifice."

There is little doubt that Professor Barron, if confirmed, would use his position on the First Circuit to legislate from the bench. The role of a judge is to apply the law to the facts, not to abuse an unelected post in advancing preferred policies against the will of the people.

Please urge your Senators to oppose confirmation of David Barron to a lifetime appointment to the First Circuit Court of Appeals.

### **A Christian faces death Sign ACLJ'S petition called "Be Heard Project": Set Meriam Free and Save her life.**

A judge in Sudan has sentenced Meriam Ibrahim to be tortured and executed.

Her only crime? Her Christian faith.

Born to a Christian mother and a Muslim father who abandoned her, Meriam was raised Christian, but the government of Sudan does not recognize her faith.

To Sudan, she is Muslim because her father was Muslim. Her Christianity makes her an apostate, a criminal.

The Sudanese judge gave her three days to recant her faith – to reject her Christian beliefs. She refused.

Meriam is pregnant, and her husband is an American citizen. After she gives birth, Sudan will punish her with 100 lashes, then kill her.

Her American toddler is imprisoned with her, as she is shackled to her prison cell on death row. He's sick, and she's pregnant with an American baby.

Yet, the U.S. State Department refuses to even acknowledge that the boy and his father are U.S. citizens.

We cannot allow a little American boy to suffer in prison and be turned over to Islamists. We cannot allow a Christian to be beaten, tortured, and executed for her faith.

Time is of the essence. The ACLJ is mobilizing its international resources for Meriam. Add your name to the letter we'll deliver to the government of Sudan. Be Heard for Meriam.

Please continue to pray for Meriam and sign the petition by accessing the link below.

### **The Heritage Foundation--Saving for Retirement without the Government**

We can all agree that it's good for Americans to save for retirement. But should the government expand from providing old-age entitlement benefits to controlling personal retirement investments as well?

Whether you want to or not, we're forced to pay into Social Security and Medicare. But today's working Americans don't have the guarantee that these programs will be there to carry us through retirement. Why? The taxes we're paying now are supporting today's retirees – not tomorrow's. And Congress may change the benefits, especially since these programs are significantly underfunded.

Ideally, we would have the option to save our own money in the way we want – and government programs would be the safety net they were supposed to be, to protect America's vulnerable from poverty.

### **Marriage Rulings Par for the Courts in Oregon and Pennsylvania over the Courts' Decisions to Strike Down their Marriage Laws**

#### **Family Research Council**

Oregon and Pennsylvania didn't have much in common -- until this week. Separated by thousands of miles, the two states united in outrage over the courts' decisions to strike down their marriage laws barely 24 hours apart. In Oregon, the 10 year-old marriage amendment was toppled in district court, where the state's attorney general refused to defend it.

Like a dozen black-robed activists before him, Judge Michael McShane [argued](#), "Because Oregon's marriage laws discriminate on the basis of sexual orientation without a rational relationship to any legitimate government interest, the laws violate the Equal Protection Clause of the Fourteenth Amendment to the United States Constitution." The state's failure to defend its own constitution, and the failure of an [openly homosexual judge to recuse himself](#), demonstrate what an overreach this decision was. The deluge of rulings hit Pennsylvania next, where Judge John Jones wrote one of the harshest opinions yet, insisting that laws affirming natural marriage should be discarded "into the ash heap of history."

While both judges cited the Supreme Court's June decisions as a rational basis to destroy marriage, the high court said nothing that would give a federal judge the right to redefine marriage. In an interesting twist, both rulings came down within hours of Politico's new polling -- which showed that a clear majority of likely voters in swing states (52-48%) are digging in on their support of natural marriage.

[http://images.politico.com/global/2014/05/18/140517\\_politico\\_topline\\_may\\_2014\\_survey\\_t\\_1117.html](http://images.politico.com/global/2014/05/18/140517_politico_topline_may_2014_survey_t_1117.html)

Obviously, the Left's strategy of forcing this agenda through the courts is backfiring -- and it's only a matter of time before the country begins to discard the opinions of unelected judges on the same ash heap where Jones tried to send marriage. Just as the country has never accepted the Supreme Court's declaration of a "right" to destroy unborn human life in *Roe v. Wade*, we will never accept the Court's assertion of a "right" to change the definition of our most fundamental social institution. The courts can ignore natural law, or even suppress it, but they will never succeed in subduing it.

## **Action/Prayer/FYI Item #16:**

### **The Rival Spirit That Will Precede the Revival Spirit in America by Jeremiah Johnson**

*"I received a vision of a battlefield in America. Thousands of generals and leaders had gathered together. To my great dismay, these men and women were not gathered to fight against the enemy of their souls, they had assembled to make war on one another. I then heard the Father say, "A rival spirit will precede the revival spirit that will be released upon America."*

To read more, access the link below:

<http://unknowndreamerministries.com/2014/02/20/rival-spirit-will-precede-revival-spirit-america/>

Please note: I know this Word from the Lord to be accurate because as I have been working with various leaders in the body of Christ and the grassroots organizations I have been amazed at the inability of God's people to realize we are all on the same side and have the same common denominator which is to see our country return back to God and have our freedoms restored! Instead, those leaders who should come together in a unity of purpose are the very ones who are the first to trample upon someone else's mandate or ministry! Moreover, these same leaders refuse to listen to another's point of view and think their ministry or organization has "the" answer!

Instead, we must be willing to work together in tandem with one another and pool our resources and expertise which one another. United we stand and divided we shall fall! As I have said before, but bears repeating, those with the *Spirit of Antichrist* have no problem working together, despite their apparent differences! This is one of the many reasons why we are NOT turning the tide for our nation.

When the truth is no one ministry or organization will be able to turn the tide for our nation, especially at the national level! Furthermore, there are many organizations and ministries building their own kingdoms, instead of being willing to set aside their own agendas and come into alignment with God's Kingdom purposes for their cities, regions and states in order to fulfill God's prophetic destiny for America which will lead to the final Great Awakening for the sole purpose of bringing in the end-time harvest of souls!

Most of the problems we are experiencing and be afflicted and oppressed with in America with are SYMPTOMS of the "root" cause which is this. We have rebelled against God our Creator and His Word!

Some other reasons we are NOT seeing the tide turn in America are stated in the next five Action/Prayer/FYI items.

## **Action/Prayer/FYI Item #17:**

### **Stasi in the Pew? Cops penetrate churches and turn them into snitch operations for the national security state**

Penetrating churches and other religious institutions and turning them into snitch operations for the national security state – under the control of local law enforcement, now merged with the Department of Homeland Security – demonstrates the seriousness of the ongoing effort to convert America into an Orwellian nightmare and a Stasi panopticon.

According to Pastor and former presidential candidate [Chuck Baldwin](#), the national security state has exploited the IRS' 501CS non-profit tax status to undermine churches in the United States.

Moreover, many Christian churches readily cite Romans chapter 13 “that teaches Christians are obligated to submit to government regardless of whether government acts within the confines and jurisdiction of God’s law or not,” Baldwin writes. “In reality, the American church today, on the whole, is not even a church. It is a government corporation whose loyalty is offered first to Caesar, not to Christ, and whose message is first politically correct before it is Biblically correct.”

## **Action/Prayer/FYI Item #18:**

### **Romans 13: Setting it Straight by Chuck Baldwin**

There is absolutely no doubt in my mind that the biggest reason America is in the mess that it's in today is directly due to the apathy and indifference of the American pulpit. I am reminded of what Charles Finney, the famed 19th Century revivalist, said: *"If there is a decay of conscience, the pulpit is responsible for it. If the public press lacks moral discernment, the pulpit is responsible for it. If the church is degenerate and worldly, the pulpit is responsible for it. If the world loses its interest in Christianity, the pulpit is responsible for it. If Satan rules in our halls of legislation, the pulpit is responsible for it. If our politics become so corrupt that they very foundations of our government are ready to fall away, the pulpit is responsible for it."*

For at least the past half-century Christian pastors and churches have been all but neutered. On the whole, they have ignored Christ's admonition to be the "salt of the earth," and as a result, have failed to do much of anything to preserve freedom's Biblical Natural Law principles in this great land. In fact, the average church is so sugary sweet that it is downright sickening!

And the two main reasons for this dereliction of duty by America's pastors and churches are the IRS 501c3 non-profit tax status, which turns the Lord's church into a government corporation; and the erroneous, fallacious interpretation of Romans chapter 13 that teaches Christians are obligated to submit to government regardless of whether government acts within the confines and jurisdiction of God's law or not. In reality, the American church today, on the whole, is not even a church. It is a government corporation whose loyalty is offered first to Caesar, not to Christ, and whose message is first politically correct before it is Biblically correct.

## **Action/Prayer/FYI Item #19:** **The Great Deception in the American Church**

Consider these statistics of Christianity in America: Eighty-four percent of the inhabitants of this nation say they believe in the deity of Jesus Christ, according to Barna Group, and 45 percent claim to be born-again Christians. Other studies show it is closer to 33 percent. Either way, these numbers are high. Seventy-seven percent believe their chances of going to heaven are excellent. Thirty-three percent believe one day everyone will go to heaven. Yet America has the highest percentage of single-parent families in the industrialized world, the highest abortion rate, the

highest rate of sexually transmitted diseases, the highest rate of teenage birth by far, the highest rate of teenage drug use and the largest prison population per capita than any country in the world.

Consider also the great moral decline of the last generation (50 to 60 years) and these telling statistics in America. The divorce rate has doubled, teen suicide has tripled, reported violent crime has quadrupled, the prison population has quintupled, the percentage of babies born out of wedlock has risen sixfold, couples living together out of wedlock have increased sevenfold, and gay marriage is now a legalized reality in a number of states, with many believing the end is not in sight.

***THE PROBLEM HAS BEEN THAT THE REAL GOSPEL HAS NOT BEEN PREACHED NOR LIVED.***

Both the profession and the practice of many so-called Christians in this nation have not matched up. Our substandard message has produced substandard believers. Our departure from the preaching of the cross, repentance, holiness, and the real empowering grace of God has increased the level of deception in the church. How else can we explain the disparity of the above statistics in the church and the nation?

Sustainable development, friend or foe to freedom? Ever wondered if so-called "global warming" has an agenda, and one that is not based on solid science? What does the United Nations have to do with it? Seriously, in America?

If you believe it's a basic tenant of freedom to be able to own private property (house with a yard and your own private car), instead of stack-and-pack, high rise apartments clustered downtown with public rail transportation, this workshop is for you! Come, find out what Regional Councils have in mind for our future.....and they are implementing this NOW. How do these Councils rob our county commissioners of their power? Where is the voter's voice?

What is the re-wilding of America? Biodiversity? Buffer zones? Smart growth? Smart meters? How do they tie together?

Over the past fifteen years, author Tom DeWeese has been sounding the alarms over government land grabs, radical environmentalists, radical "reform" in the schools, attacks on national sovereignty, and UN driven global governance. Now those policies he warned everyone about are front page headlines fueling a national discontent.

Tom DeWeese is one of the nation's leading advocates of individual liberty, free enterprise, private property rights, personal privacy, back-to-basics education and American sovereignty and independence. Tom will give the history of the Sustainable Development movement with loss of private property rights for Americans, who characteristically have enjoyed a much higher standard of living than the rest of the world. With a United Nations end goal of equal justice for all, Americans must change their standard of living.

How will this be done? Come, find out, as we discuss what social justice looks like on a global scale, and learn about the agreement made by countries of the United Nations through The Earth Summit in Rio de Janeiro in 1992 and what it means to our world today, and how it is being used through appointed bureaucrats in Regional Councils.

Learn how the green movement ties into this, as well as so-called "global warming" scares. Coalition for Property Rights, Executive Director Dan Peterson will enlighten us to our local property rights issues and discuss ways we can take a stand, as well as update us on his work this past legislative session to stop bad bills from becoming laws that encroach upon our freedoms.

Also, speaking: Former Commissioner Judy Culpepper and Activist Stephanie Austin on regional plan, "Seven50". Come hear their personal experience fighting back at the county level in Indian River and St. Lucie Counties. What approach worked, and what did not?

This is a time to learn more, as well as formulate our own personal county plans to do what can be done. Working together in our joint regions will accomplish so much more, and at a faster pace, than going it alone in one county. Our particular region includes six counties: Orange, Seminole, Brevard, Lake, Osceola, and Volusia. (See attachment below). Together, we stand.

All other counties are welcome to join us. Check your particular region in the diagram below. We encourage you to get your neighboring county friends to join you and your group members with other interested citizens to attend this important seminar. This is war for the basic right to own private property..... in America! Please share.

## Florida's Regional Visioning Processes

Thank you to all of the citizen lobbyists and to the **Liberty First Network** for all of the hard work alerting legislators of the damage these bill will cause. Although they did not listen to everything we said, your effort made a difference.

## Action/Prayer/FYI Item #2:

**The Liberty First Network has had some impressive influence in Tallahassee this year.**

This session we introduced the newest member to our team, bringing our organization to 3 professional lobbyists. We took on 3 diverse legislative issues for this session.

John Hallman started our session dedicated to protecting your property rights and fighting any changes to Stand Your Ground. It was a large fight to take on, as one of the proponents for changing Stand Your Ground (and publicly against our efforts) was Marion Hammer with the NRA.

**Due to John's tireless work, his detailed analysis of the legislation and YOU the grassroots, the bill was stopped in the state senate and never taken up in the state house.**

There was also a budget victory in the property rights issues: Environmental groups had requested \$100 million for the Florida Forever land-buying program.

The budget negotiators agreed on \$12.5 million for Florida Forever and another \$5 million for

agricultural conservation easements. Another \$40 million was provided from the possible sale of non-conservation lands.

The \$17.5 million in new revenue for conservation lands overall is less than the \$31 million provided last year for Florida Forever and agricultural conservation easements.

During the Jeb Bush years, Florida Forever was receiving \$300 million per year.

Our newest legislative consultant, Danielle Alexandre, stood up for our booming Microbrewery Industry. This legislation changed drastically over time. There were last minute amendments and several votes as this legislation moved through the process. She stayed focused on this fast moving legislation and kept YOU up-to-date every step of the way.

**In the end, this legislation, although passed in the senate, was stopped in the house because of her, and your work.**

Paul Henry, continued his fight against Red Light Cameras. His diligent attention to the issues ensured that YOU were informed of an obscure amendment put into an unrelated transportation bill that would force all Red Light Camera tickets to be fought in front of an unelected magistrate. **After Paul put out his action alert and you contacted the legislators, this amendment was removed.**

While all of these achievements are exciting, our work is far from over. In fact, it is really just beginning.

We have already started working on the 2015 session to fight for less government regulation in our homes and businesses. We are also working on some positive pieces of legislation to present in Tallahassee this upcoming session.

**We are also happy to announce that Danielle Alexandre will be the Liberty First Network's 3rd registered lobbyist.** This is a welcomed addition to our team and will bring a new dynamic in the field of business regulations. Her tenacity and impressive resume will enable our team of lobbyist to work at an even higher level for you.

We have put together a comprehensive plan and budget for the 2015 legislative session. Danielle Alexandre will be a lobbyist for Liberty First Network next year, bringing our organization to 3 professional lobbyists. Along with our lobbyists we have plans to be in Tallahassee for the entire 4 months of committee weeks and session dates. That will put our lobbyists on the front lines fighting for you. Our budget includes researchers and administrative costs and is done for a fraction of the cost of a Tallahassee lobbying firm. See our budget by accessing the following link.

We have accomplished so much this session and with your help we can make even greater strides towards freedom in the coming year.

Please consider becoming an individual member. Your monthly recurring donation will ensure we can bring our fight directly to Tallahassee. Your organization can also join our network as an organizational member. Of course every individual donation helps us get to our budget goal. Your contribution of \$25, \$50, \$100 or more will continue to keep our organization fighting for you.

Sincerely,

The Liberty First Network Team

## **Action/Prayer/FYI Item #3: Florida Town Threatening Volunteers Who Feed Homeless**

" A group of volunteers who have prepared food for the Daytona Beach homeless population – or anyone who is hungry, the organizers say – for the past year were given citations and trespass warnings by law enforcement this week.

The city, like dozens of local municipalities across the United States, is attempting to discourage groups outside the approved channels from offering assistance, in hopes of funneling charity to centralized homeless services in the area, the Daytona Beach News-Journal reported.

“The ordinance is there, so if we catch you, we're going to cite you,” Police Chief Mike Chitwood said. “If you want to feed people, and you want to do a good, Christian act, we encourage you to coordinate with the social service agencies.”

Chico and Debbie Jimenez, founders of Spreading the Word Without Saying a Word, and their volunteers were targeted this week at Manatee Island Park despite their reportedly responsible, respected efforts to feed the hungry. Their citations amounted to threats of a \$273 fine for trespassing and \$100 fine for facility use without a permit. "
