Prayer/FYI Item #1:

EMERGENCY PRAYER STRIKE the U.S. Supreme Court is in need of immediate and focused prayer right now for Texas

Written by Matt Lockett, Director of Bound4Life

The U.S. Supreme Court will make a decision in the next few days regarding the constitutionality of one of the farthest-reaching pro-life laws the nation has seen yet. Texas' HB 2 bans abortions after 20 weeks, raises the standard of care in abortion clinics to that of ambulatory surgical centers, and requires abortion doctors to have admitting privileges at a nearby hospital.

Here's what has happened:

Oct 31-Nov 2 Bound4LIFE hosted the Red Riders Tour in Dallas, TX. The dates for this event were planned more than six months ago. Little did we know that it would line up perfectly with the historic pro-life storyline developing in Texas right now.

Monday, Oct 28 a federal judge granted an injunction blocking a key part of the pro-life law HB 2. We were disheartened by the news even as we were on our way to Dallas for the event.

Unexpectedly, a three-judge panel for the 5th Circuit Court of Appeals, who were all women, moved quickly to lift the injunction on Thursday, Oct 31 allowing the pro-life law to take effect immediately.

During the Red Riders Tour, we gathered for a Silent Siege at the Earle Cabell Federal Building, which is the birthplace of Roe v. Wade. The front page news that morning was that abortion providers all across the state were canceling abortions. Many of them had closed their doors. One abortion center director was quoted saying they had to scramble the previous evening to cancel 45 abortions scheduled the following day.

Monday, Nov 4 pro-abortion businesses filed an emergency petition to the U.S. Supreme Court to intervene seeking a reinstatement of the injunction so that abortions can resume.

This matter is assigned to Supreme Court Justice Antonin Scalia who has given Texas Attorney General Greg Abbott until Tuesday, Nov 12 to file a brief for consideration. Other Justices could force a review of the matter by the full Court.

The Red Riders Tour Dallas is not done! We are assured by legal experts that we have a window of DAYS and NOT WEEKS right now.

We plead with you to join with us now in an immediate prayer initiative to contend for this law to remain in effect. This will be a coordinated effort connecting prayer both in Texas AND in Washington, DC.

Bound4LIFE will be intensifying our prayer efforts in front of the Supreme Court with a daily extended Silent Siege coupled with prayer "Rumbles" where we will cry out specifically for this Texas law to remain in effect.

Will you mobilize your own group, church and network to contend with us for the next few days in intensified prayer?

For LIFE in Texas and the nation,
Matt Lockett
Bound4LIFE Director

FYI Item #6:

Will you help Restore Our Nation?

Come enjoy studying the “Mighty Deeds of God” (Psalm 78) in the founding of America’s Liberty through these three courses which cover 36 weeks. You will understand how God moved providentially through

generations and centuries to glorify Himself through this nation with covenants and miracles. Your faith will be built as you discover how great our God is! Every Christian needs to develop an understanding of these principles to know what practices will build freedom, prosperity and justice. Then we as a culture will know what practices to refuse and which to embrace, which will bring poverty and despair and which will bring success and prosperity.

Stock up on Ammo while you still can...

The following is from KrisAnne Hall

"Remember when Obama promised his minions that he was working on gun control behind the scenes? Welcome to it. Now, all domestic mined lead ore will have to be shipped overseas, refined and then shipped back to the US. Not only will ammo now be even harder to come by, the demand and the process of supply will cause the price to skyrocket even more. And ponder this... there is an excellent chance that Obama will rig the market to where all ammo has to be purchased from a government entity instituting de facto ammo registration."

Prayer/Action/FYI Item #10: Crash Checklist and Timeline

Recently I received several different emails alleging something big **may** happen in November. Therefore, it is better to be safe and prepared ahead of time than not to be ready for whatever may come. According to the following article, and others, a mock "blackout" training will indeed take place in November.

As Worries Over the Power Grid Rise, a Drill Will Simulate a Knockout Blow

http://www.nytimes.com/2013/08/17/us/as-worries-over-the-power-grid-rise-a-drill-will-simulate-a-knockout-blow.html?smid=fb-share&_r=0

Check out the email I received from Bix Weir below titled a "***Final Checklist for Everyone.***" I recommend printing it out ahead of time and keeping it in a note book. You will not be able to get to it if you have no power.

Also, I have a tab on my website at www.angeloffaith777.com titled IT IS TIME TO PREPARE too.

Subject: Crash Checklist and Timeline

The take down of the Foreign Exchange Division heads at the largest trading firms is happening now so there is very little left for the Good Guys to do before the Global Meltdown. It is time to be prepared and focused on what to look for. This weekend National Geographic is airing a docudrama on how it will look if we lose power in the US...and next week all the power companies are running a nationwide "simulation" of a total grid blackout. Hmmm.

Everything else points in the same direction...no more talk of "Green Shoots" on the horizon. It is game time so I thought I'd post my old "Checklist" article once again. You can never be too prepared...

A Final Checklist for Everyone

<http://www.roadtoroota.com/public/422.cfm>

I don't know when it will all culminate. I know there are plans in place for a fairly smooth transition but I don't know if they will work or will be accepted by the masses. Nobody does. And nobody knows HOW LONG it will take to get back on our feet.

Here is some info on removing personal info from the internet. It is taken from an article written by Bill Rounds and gives a quick overview of where to begin when it comes to improving privacy on the internet.

Remove Personal Information From the Internet

by Bill Rounds
How to Vanish

Tattoo ink and internet ink are very similar. A lot of people are getting tattoos and putting their personal

information on the internet. But, both tattoos and information on the internet are regrettably hard to remove. Even good ol' Mark Zuckerberg is finding out the hard way that making some personal information public might be a bad idea.

Whatever the popular trend is, there will always be some people who aren't fond of permanent identifying marks. But what can you do if you have made a few foolish mistakes in the past and you need to remove personal information from the internet? Fortunately, it is a lot less painful to remove some of your personal information from the internet than it is to remove a Mike Tyson Special.

Go To The Source

Removing private info from online profiles is an obvious first step, but there are a lot of websites that share or sell your data without your knowledge. There are ways to clean up a lot of that information too.

There are more websites that will share or sell your private data than anyone would like to count. A lot of the internet is just a big echo chamber. For every website with original content there are tons of other sites copying and repeating what was said before. If you want to take down information, focus on removing it from those sources. This narrows down your action to a few, rather than hundreds, of potential sources.

Intelius and Acxiom are two big data aggregators that are the biggest source for most other websites that share sensitive information on the internet. Removing your information from Intelius or Acxiom will effectively remove it from most other websites too. You may still want to remove personal information from other sites too, just to be on the safe side.

Contact The Sites Directly

Most sites allow you to remove data like address, phone number, and social security number. Every company has a different method and you need to follow their own procedures. They might let you do it online, they might make you do it through the mail. Lots of times they will want you to provide more personal information to prove who you are to remove your information. Here is a list of the main sites where your information might be found with a link to remove your info. You might want to check each one to see how much of your own personal information shows up.

Remove Personal Information From The Internet

Acxiom.com

USsearch.com

Whitepages.com

Yahoosearch.com

Addressing The Symptom, Not The Problem

Removing information from any of these sites, even Intelius or Acxiom, is like removing an unwanted tattoo. It is much better to avoid the tattoo in the first place than to try to remove it later. Plus, there are no guarantees that you can even remove it completely. The only way to do that is to know how your information gets in those databases in the first place, and prevent it from ever showing up there.

Where Do These Sites Get All Of This Info

All of these websites collect your information from a lot of places like your online profiles (Facebook, linkedin, match.com , etc.) public records (property ownership records, court proceedings, census data, etc.) job application or résumé sites, credit reporting agencies, smartphone apps, entering a sweepstakes to get free stuff, and lots of other sources that they won't even tell you about. Data is valuable and most organizations that get it, sell it. Selling your information is what made Mark Zuckerberg a billionaire.

Prevent Personal Information From Showing Up On The Internet

There are lots of ways to prevent information from ever showing up in these public sources, and from showing up online. The best way is to leave personal information blank whenever you are asked to provide it. When you must share information, use a ghost address, pre-paid cell phones, a business entity, and other anonymizing techniques you can find in the book *How To Vanish*.

Conclusion

Like tattoo removal, removing personal information from the internet is not perfect. Traces of your personal information online may remain for a very long time. If you already have some unwanted informational tattoos, its not too late. The sooner you get started removing personal information from the internet, the better off you will be.

"The Miracle of Israel" - Airing in 6 Additional Cities!

Earlier this year, many of you prayed for the release of a special documentary, **The Miracle of Israel**. This professional production was aired on secular, network television in seven key cities. The hope was to reach the secular Jewish Community and unbelievers to introduce the concept of a coming Messiah, and why Jesus (Yeshua) of Nazareth fulfills the biblical requirements. The Miracle of Israel will now air in 6 additional cities:

Boston (beginning November 16)
Denver (beginning December 14)
Detroit (beginning November 16)
Philadelphia (beginning today, November 7)
Rochester (beginning December 3)
San Diego (beginning November 9)

For a listing of broadcast times, please visit www.TheMiracleofIsrael.com and click on the "schedule" tab in the center of the page.

This is an incredible project and a NOW moment for the Jewish people to be drawn to a true knowledge and understanding of the miracle of who Yeshua is personally, for them. Please join us in praying for the impact of this film and for Holy Spirit to stir within the hearts of the Jewish people in our nation, as well as the nations of the world. The Geneva talks will resume November 20, which gives us 10 days to advance our “Stand with Israel” letters to Congress and the State Department.

We decided we would combine our efforts for greater effect, and the Liberty Counsel attendees will operate as a ++This Liberty Counsel campaign is also in the interest of the entire world!

Liberty Counsel supports Israel for biblical and national security reasons. Israel is a Middle East bastion of democracy and individual freedom, and is the birthplace of the Judeo-Christian concept of the rule of law – which, in turn, became the foundation of America and Western Civilization.

As I have discussed with Prime Minister Netanyahu, the United States and Israel are the pillars of Western Civilization and our nations’ fates are inextricably linked. We MUST stand with Israel!

Sign the Petition to the Florida Legislature: Stop federal control of Florida's education system through Common Core!

The Common Core Standards are academically inferior; heavily promoted by the federal government and teach our children psychological attitudes and attributes and workforce skills instead of providing an academic education; and violate parental autonomy. test these psychological concepts and skills and the federal data collection system combines these test results with sensitive private data on our children, our families, and our teachers. Send the letter to every legislator, news outlet, social media and email list you can find. Man made climate, GHG, sustainable development, CCS and every program in America is wrong. Funding for these programs MUST BE STOPPED.

Americans are spending billions on programs designed to FAIL.

Is your legislator attending a climate conference put on by a regional group? If so get them this letter.

Last Friday, President Obama made another Executive Order proclaiming we will spend even more money we don't have for a problem that does not exist. The sun (who refuses to pay taxes) controls our climate. The climate is cyclical. Heat, cold, extreme weather has happened before and will happen again. Check history back 100, then 200 years. This is what is happening again. Man has no control. Man can only prepare.

Is President Obama telling you to prepare? NO. He lied about Obamacare. He is lying about the climate as well. Pay attention to world weather reports in addition to those in America. You will hear about unprecedented cold which will cause death and starvation.

GHG is just a tool used to control the people. Obama is just following the same wrong direction just so he can steal your land, tax you and spend future dollars on programs that will not work.

Share this email with every American in the United States. Call radio, media, TV, newspapers, local, national constantly, email constantly. Comment on political and climate blogs. Go to watchdogwire.com <http://bit.ly/HEjmWS> to leave your comments, like the column. Reference the letter.

No matter what your issue, your life will be affected by these lies. Freedom is not free. You asked what you can do, this is it. Demand the legislature STOP Funding LIES.

Floridians push back against regionalism, new urbanism and seven-50 plan

<http://watchdogwire.com/florida/2013/10/24/floridians-push-back-against-regionalism-new-urbanism-and-seven50-plan-in-saint-lucie-county/>

A growing movement consisting of Florida citizens is pushing back against an effort to regionalize Florida. This is part of new urbanism promoted across Florida as the Seven50 Plan. The Florida Seven50 Plan includes the counties of Indian River, St. Lucie, Martin, Palm Beach, Broward, Miami-Dade and Monroe. Indian River County has since dropped out of the Seven50 Plan. Florida Seven50 is one of eleven plans to create “mega regions” in America. The intent is to blur city and county boundaries and place control for land use and zoning decisions into the hands of unelected regional committees and their staffs.

Register at: <http://www.womenimpactingthenation.org/for-such-a-time-as-this-conference-2013>

This is a unique conference that blends faith with action. Enjoy a concert with Dove Award winner Kathy Troccoli, have dinner with author and CURE founder Star Parker, shop a fabulous silent auction, attend a reception with Anita Staver and the other speakers, hear from Campus Crusade cofounder Vonette Bright, meet talk show host Rachel Campos-Duffy, and learn from many more outstanding women leaders.

You will go home encouraged, informed, empowered, and equipped to make a positive impact in your own sphere of influence and community.

Together we CAN make a difference for **His Kingdom** and **America!** Blessings until we meet again.

Thanks and God Bless!

In His Service,

Donna M. Rogers
