UNCONSTITUTIONAL INITIATIVES CURRENTLY UNDERWAY

It is past time that “We the People” hold our elected officials accountable for how they vote on issues which are circumventing our U.S. Constitution and are stripping away our freedoms we have been given by God, our Creator! If we do not, our nation’s sovereignty will be lost.

We must appeal Obamacare, the Patriot Act and the NDAA in Florida!

We must protect and stand guard the current initiative to violate and eradicate our Second Amendment as this current administration under the leadership of President Obama seeks to enact legislation for gun control and confiscation of our arms. This is a direct violation of our right to bear arms to protect us from a tyrannical government! They are also targeting church leaders to come on board with their agenda.

We must take back the power and authority from the federal government and restore the sovereign commonwealth back to the state of Florida as was envisioned by our founding fathers as they penned our

U.S. Constitution, Declaration of Independence, and our Bill of Rights under God's divine providence. This is what the 10th Amendment Center is seeking to do! Therefore, we must invoke prayer and action on their current initiatives they are seeking to enact!
